ALTA COMMITMENT FOR TITLE INSURANCE (07-01-2021)

SCHEDULE B PART I

ISSUED BY
STEWART TITLE GUARANTY COMPANY

Requirements

File No.: 20250732

All of the following Requirements must be met:

1. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.
2. Pay the agreed amount for the estate or interest to be insured.
3. Pay the premiums, fees, and charges for the Policy to the Company.
4. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records
 - a. Warranty Deed from Ruth H. Steichen to Purchaser with contractual obligations under a Real Estate agreement.
 - b. Mortgage from Purchaser with contractual obligations under a Real Estate agreement to Lender with contractual obligations under a loan agreement with the Proposed Insured identified at item 2a above, securing the principal amount of \$0.00.
5. Execute, deliver and record an affidavit that complies with 60 Okla. Stat. § 121.
6. Lien Affidavit and Indemnity executed by seller(s), mortgagor(s) and/or contactor (if any) stating that all bills are paid for labor and/or materials which might form the basis for a materialman's or mechanic's lien. Or in the case of a non-builder seller, obtain a Seller's affidavit stating that there does not exist any outstanding court judgments, contracts, or liens, which may affect subject property.
7. In the event the proposed insured requires deletion of the general survey exception set forth in paragraph 5 of Schedule B – Part II, we must be provided a satisfactory survey of the subject premises made in accordance with the Minimum Standard Detail Requirements for ALTA/NSPS Land Title Surveys (Effective February 23, 2021) [the "Survey Standards"], including Items 1, 2, 4, 7, 8, 9, 10, 11, 16 and 18, as set forth in Table A of the Survey Standards.

Note: Certain conditions or requirements of other parties to the transaction may require other Items in Table A of the Survey Standards be included in the survey.

8. Obtain a Final Report for issuance of title policy.

This page is only a part of a 2021 ALTA® Commitment for Title Insurance. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I - Requirements; and Schedule B, Part II - Exceptions; and a countersignature by the Company or its issuing agent that may be in electronic form.

SCHEDULE B PART I

(Continued)

9. If subject transaction does not close AND the instruments to be insured are not filed of record within 180 days from the abstract certification date, abstract must be extended to date, resulting in additional charges, before final policy can be issued.
10. Obtain a Uniform Commercial Code search as to current owner in Oklahoma County, and satisfy any judgments or liens which might affect the subject property and have releases thereof filed of record.
11. Obtain a court search as to PURCHASE in County of property location, and satisfy any judgments or liens which might affect the subject property and have releases thereof filed of record.
12. A Transcript of the Estate of Ruth Helen Steichen has been examined. Obtain and file of record all valid recorded Orders of the court in regards to the subject lands and further requirements will be made as necessary.
13. Record properly executed Release of Mortgage:

Mortgagor: Ruth Helen Steichen
Mortgagee: Bancfirst
Amount: [REDACTED]
Dated: 8/1/12
Filed: 8/6/12
Recorded: Book 1578 Page 799
Refiled August 24, 2012 in Book 1581, page 334;
Modification recorded May 10, 2018 in Book 1775, page 978;

ALTA COMMITMENT FOR TITLE INSURANCE (07-01-2021)

SCHEDULE B PART II

ISSUED BY
STEWART TITLE GUARANTY COMPANY

Exceptions

File No.: 20250732

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This Commitment and the Policy treat any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document will be excepted from coverage.

The Policy will not insure against loss or damage resulting from the terms and conditions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.
2. Rights or claims of parties in possession not recorded by the Public Records.
3. Easements, or claims of easements, not recorded by the Public Records.
4. Encroachments, overlaps, boundary line disputes, or other matters which would be disclosed by an accurate survey or inspection of the Land.
5. Any lien, or right to a lien, for services, labor or material heretofore or hereafter furnished, imposed by law and not recorded by the Public Records.
6. Taxes or assessments which are not recorded as existing liens by the Public Records.
7. Minerals of whatsoever kind, subsurface and surface substances, including but not limited to coal, lignite, oil, gas, uranium, clay, rock, sand and gravel in, on, under and that may be produced from the Land, together with all rights, privileges, and immunities relating thereto, whether or not appearing in the Public Records or listed in Schedule B. The Company makes no representation as to the present ownership of any such interests. There may be leases, grants, exceptions or reservations of interests that are not listed.
8. Statutory Section Line Road Easements in favor of the State of Oklahoma, where applicable.
9. Water rights, claims or title to water, whether or not shown by the public records.
10. Section line road easement created under Title 43 USC Section 1095 and any rights therein granted to others by the Board of County Commissioners of the county in which the Land is located or by the city in which the Land is located.
11. Report of Condemnation Commissioners recorded October 23, 1930 in Book 108, page 405. (Section 13)

This page is only a part of a 2021 ALTA® Commitment for Title Insurance. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I - Requirements; and Schedule B, Part II - Exceptions; and a countersignature by the Company or its issuing agent that may be in electronic form.

11

FILED IN DISTRICT COURT
KAY COUNTY, OKLAHOMA

FEB 23 1927

H. O. HOONAN, Court Clerk
By Sophia [Signature]
Deputy

REPORT OF CONDEMNATION COMMISSIONERS

TO THE COURT CLERK OF KAY COUNTY, STATE OF OKLAHOMA.

We, the undersigned,

A. H. Stevens

R. B. Hise

J. J. Thayer

each being a disinterested freeholder of Kay County, Oklahoma, having been selected as Commissioners to inspect the real property herein-after described and consider the injury which the defendants, as the owners thereof, will sustain by reason of the taking of a portion of said property by the Oklahoma Gas and Electric Company, a corporation, organized and existing under and by virtue of the laws of the State of Oklahoma, respectfully submit the following report:

That on the 22 day of February, 1927, we and each of us took the oath prescribed by law and proceeded to inspect the real estate owned by the defendants, being described as the W 1/2 of the NW 1/4 of Section 13, Township 25 North, Range 1 East of the Indian Meridian, in Kay County, State of Oklahoma.

We further report that the Oklahoma Gas and Electric Company, a corporation, as aforesaid, has located its survey for the construction of an electric transmission line over and across the premises above described, said line to enter the premises of the defendants at a point 1453 feet South of the Northwest corner of said NW 1/4 of said Section 13, and running thence in a Northeasterly direction a distance of 1434.5 feet to a point on the East Boundary of the W 1/2 of the NW 1/4 of Section 13 aforesaid 288.5 feet South aforesaid.

That for the operation and maintenance of said line the plaintiff will require the following described partials of land, to-wit:

A tract of ground 5 feet in width in an Easterly and Westerly direction by 20 feet in length in a Northerly and Southerly direction, said tract being located at a point on the route above set forth a distance of 65 feet East of the West line of said NW 1/4 of Section 13 aforesaid.

Also a tract of ground 5 feet in width in an Easterly and Westerly direction by 20 feet in length in a Northerly and Southerly direction, said tract being located at a point 615 feet East of the West boundary of said NW 1/4 of Section 13, aforesaid.

Also a tract of ground 5 feet in width in an Easterly and Westerly direction by 20 feet in length in a Northerly and Southerly direction, said tract being located at a point on the route of line above set forth a distance of 1115 feet East of the West line of said quarter Section.

That the total amount of land so required by the plaintiff amounts to approximately 1/150th of an acre.

That in addition to the actual land so taken by the plaintiff as above set forth it will require the right to remove all trees which may interfere with or endanger the operation of said line, which we find to be six trees.

Plaintiff also requires the right of ingress and egress for patrolmen on foot to patrol and inspect said line and for teams or trucks, workmen and material necessary in the construction of said line and for the repair thereof, if and when necessary, subject, however, to the payment of any damages to crops as the result of the construction of said line and the repair thereof in the future.

That on each of the parcels of land described herein as being required by the plaintiff it will erect poles and cross arms and requires the right to maintain said wires from cross arm to cross arm over defendants land on the route of line herein above described.

We further report that we have viewed the premises sought to be taken by the plaintiff together with adjoining land of the defendants and after investigating the matter as to the value of the land actually taken and damages to the remainder by reason of the removal of trees and maintenance of wires from cross arm to cross arm above said land together with right of ingress and egress subject to the conditions above set forth, we find that the defendants will sustain an injury by reason of the use of said property as above set forth and the appropriation of the three small tracts where the poles are located and we hereby assess the amount of damages due to the defendants, as the owners of said land, by reason of such use and appropriation at the sum of Five Hundred Dollars dollars.

In witness whereof we have hereunto set our hands this
22 day of February, 1927.

S.H. Stevens Commissioner
J.J. Thayer Commissioner
R.G. Hiskett Commissioner

appraisers fees 2.00 each

Received the within order on the 11th day of February 1927, and as commanded therein I summoned S.H. Stevens, R.G. Hiskett and J.J. Thayer and conducted them to the place where this land is located and they made a personal inspection of the same on the 22nd day of February 1927, and their report made herein.

J.M. Barker, Sheriff.
By R.E. Raden Deputy,

A true and certified copy of the above and foregoing REPORT OF CONDEMNATION COMMISSIONERS was filed for record in the Office of the County Clerk of Kay County, State of Oklahoma on October 23, 1930 at 11:30 A. M. and recorded in Book 108 of Miscellaneous, Page 405.

Note: Balance of proceedings herein omitted will be shown upon request.

Abstracter

Frank Hughes and Grace
Hughes, his wife,

To

Continental Pipe Line
Company, a corporation.

RIGHT OF WAY CONTRACT

Dated August 20th, 1954

Filed October 23, 1954

At 8:00 A.M.

Recorded in Book 206 Misc.,
Page 399

Consideration: \$18.00

#12

Hereby grant the right to lay, maintain, inspect, alter, repair, operate, remove and relay a pipe line, or pipe lines, for the transportation of oil and gas and products and by-products thereof, water and other substances, and such drips, valves, fittings, meters and other equipment and appurtenances as may be necessary or convenient for such operations, and to erect, maintain, inspect, repair, operate and remove, upon a single line of poles, with necessary anchorage and appurtenances, telephone, telegraph or electrical lines, or any of them, over, through, upon, under and across the following described land in Ray County, State of Oklahoma, to-wit:

W $\frac{1}{2}$ NW $\frac{1}{4}$ Section 13, Twp. 25 North, Rge. 1 East.

S2-53

The undersigned consent and agree that said right of way agreement may be assigned by the owner thereof, its successors and assigns, in whole or in part, vesting in any other person, firm or corporation the ownership of one or more pipe lines with full rights of ingress and egress for the maintenance, repair, operation, replacement and removal thereof, subject, however, to the terms and conditions of said Right of Way Agreement.

Together with the rights of ingress and egress to and from said line or lines, or any of them, for the purpose aforesaid. Grantor to have the right to fully use and enjoy the above described premises, except as to the rights hereinbefore granted; and Grantee hereby agrees to pay any damages which may arise to crops, pasturage, fences or buildings of said Grantor from the exercise of the rights herein granted, said damages, if not mutually agreed upon, to be ascertained and determined by three disinterested persons, one thereof to be appointed by Grantor, one by Grantee, and the third by the two so appointed, and their written determination of amount to be final and conclusive.

Should more than one pipe line be laid under this grant, at any time, an additional consideration, calculated on the same basis per lineal rod as the consideration hereinabove recited, shall be paid for each line so laid after the first line.

Grantee shall bury pipe lines below plow depth.

TO HAVE AND TO HOLD said easement, rights, and rights of way unto the said Grantee, its successors and assigns until said easement be exercised, and so long thereafter as the same shall be useful for the above named purposes.

It is understood that the person securing this grant is without authority from Grantee to make any agreement in respect of the subject matter hereof not herein expressed.

This agreement is binding upon the heirs, executors, administrators, successors and assigns of the parties hereto.

Frank Hughes
Grace Hughes

Acknowledged August 20th, 1954 by Frank Hughes and Grace Hughes, his wife, before Charles A. Morrill, Notary Public, Kay County, Oklahoma. (SEAL) Commission expires May 7, 1957.

IN THE DISTRICT COURT WITHIN AND FOR KAY COUNTY, STATE OF OKLAHOMA

IN RE: Bois D'Arc-Cowskin Creek)
Conservancy District No. 1) CASE NO. C-71-16
in Kay County, Oklahoma)

#13

Petition executed in six counterparts to establish
Conservancy District to include approximately 22,875 acres of
land in Kay County, Oklahoma filed February 10, 1971.

Alias Order for Hearing filed Jan. 4, 1972, setting
hearing on Petition for March 16, 1972.

DECREE OF INCORPORATION

CASE NO. C-71-16

(Omitting caption)

Filed March 22, 1972

Now on this 16th day of March, 1972, at the hour of
9:00 A. M., this matter comes on for hearing in the District
Courtroom in Newkirk, Kay County, Oklahoma, upon the petition for
the creation of the Bois d'Arc - Cowskin Creek Conservancy District
No. 1 of Kay County, Oklahoma, and the objections filed thereto.

The Petitioners appeared in person and by their attorneys,
Ross, Ross & McCarty. The City of Ponca City, Kay County, Oklahoma,
appeared by its attorney, Marland Johnson and with permission of the
Court, withdrew their petition requesting the formation of said
Conservancy District.

After the taking of sworn testimony of the petitioners,
the examination of the filings herein, and the hearing of all
parties and interests, the Court made the following findings of
fact, to-wit:

SHEET

1. That due and legal notice of this hearing has been given, as required by the Statutes of the State of Oklahoma, by the publication of said notice and a map of the proposed district in the Newkirk Herald Journal, a newspaper published in Kay County, Oklahoma, at least 60 days prior to the date of this hearing.

2. That the purpose of the Conservancy Act of the State of Oklahoma would be subserved by the creation of the Conservancy District as prayed for.

3. That as of the date of this hearing, above, fifty-one percent or more of the landowners and numbers of acres of land within the proposed district have filed written petitions requesting formation of said District.

4. That as of the date of this hearing fifty-one percent of the number of owners and acres of land in the proposed District have not filed written protest against the formation of said District.

5. That all questions of law, fact and equity or either of them have been heard and determined in favor of the organization of said District, and that said District should be organized for the reasons and purposes set out in said Petition.

6. That said District should be designated as the Bois d'Arc - Cowskin Creek Conservancy District No. 1, Kay County, Oklahoma, and that its principal place of business shall be the office of the District Soil Conservation Service, located at 204 South Main Street, Newkirk, Oklahoma, which is a location within the county affected by said District.

7. That the general description of the outline of said District as substantially set out in the petition and the map of the proposed District as published with the notice of this hearing is as follows, to-wit:

W/2 W/2 and SE/4 SW/4 of Sec. 13, Twp. 25N, Rge. 1E.

(And other property not herein abstracted

All located in Kay County, Oklahoma.

In all of the above "N" means North; "S" means South, "E" means East and "W" means West. "Twp." means Township, "Rge." means Range and "Sec." means Section. Letters with slash mark followed by number means fractional portion of the description.

8. That as to all other real property, other than as described above, whether named in the petition or the notice of this hearing, should be dismissed and not included within the boundary lines of said District.

9. That the 20th day of April, 1972, at the hour of 10:00 A. M. in the District Courtroom in Newkirk, Kay County, Oklahoma, shall be held an election for the temporary Board of Directors, and that notice thereof be given as required by law not less than 30 nor more than 60 days before the date of such meeting.

IT IS THEREFORE ORDERED, ADJUDGED AND DECREED that the Bois d'Arc-Cowskin Creek Conservancy District No. 1, Kay County, Oklahoma, is organized under the provisions of the Conservancy Act of the State of Oklahoma and shall have all the corporate powers of such a Conservancy District as provided by Statute and for the following specific purposes, to-wit:

- (1) Of preventing floods;
- (2) Of regulating stream channels by changing, widening, and deepening same;
- (3) Of reclaiming or of filling wet and overflowed land;
- (4) Of providing for irrigation where it may be needed;
- (5) Of regulating the flow of streams;
- (6) Of diverting or in whole or in part eliminating watercourse, or part of the flowage thereof;
- (7) To maintain, operate, and repair any construction herein named and to do all things necessary under the provisions of the Conservancy Act of Oklahoma for the fulfillment of the purposes for which the District is created.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the area of said Conservancy District shall be as above described and that any and all other real property not contained in the above description shall be dismissed in the organization of said District and that the principal place of said business of said District shall be as set out above.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that on the 20th day of April, 1972 at the hour of 10:00 A. M. in the District Courtroom of the Courthouse in Newkirk, Kay County, Oklahoma, shall be held an election for a temporary Board of Directors for said Conservancy District and notice be given thereof all as provided by said Conservancy Act of Oklahoma.

We, the undersigned commissioners appointed as such in the above-styled and numbered cause, do hereby submit this, our report, as directed in said order of appointment.

On the 14 day of Jan., 1971, we took the oath and proceeded to view the following described property and premises, to-wit:

East half of the Northwest Quarter (E/2 NW/4) of Section Thirteen (S13), Township Twenty-five North (T25N), Range One East (E1E), Kay County, Oklahoma

We further report in accordance with said order of appointment that it is necessary for the plaintiff to operate and maintain a 12 inch pipeline across the above-described lands and to obtain a permanent easement 30 feet in width for a distance of 88 rods for the maintenance and operation of said pipeline to be used for the transmission of natural gas; that we have considered the injury and damage which the defendants as the owners SECURITY ABSTRACT COMPANY, Newkirk, Oklahoma

of such lands will sustain by reason of the maintaining, operating, removing of such pipeline across and upon said property at the location shown on the plat attached to the original petition, and we hereby fix the amount of damages due the defendants as the owners thereof by reason of the taking by plaintiff of said permanent easement for the pipeline thereon, in the amount of \$880.00.

IN WITNESS WHEREOF, we have hereunto set out hands on this 14 day of Jan., 1971.

ORDER CONFIRMING REPORT OF COMMISSIONERS

Now on the 18th day of March, 1980, the above styled and numbered cause came on for hearing and the Plaintiff, Oklahoma Gas and Electric Company, appeared by its attorney of record, Paul Walters, and the Defendants appeared by their attorney, Walt Brune. The parties hereby waive trial by jury and agree that this matter might be heard without further notice and the Court being fully advised in the premises, finds:

1.

Plaintiff is a corporation duly organized under the laws of the State of Oklahoma and vested with the power of eminent domain for the acquisition of property needed for the transmission of electric power and energy.

2.

It is necessary for the Plaintiff to appropriate and take, under the powers vested in it by the Statutes of the State of Oklahoma, an easement and right of way over and across the real property described in Plaintiff's Petition for the construction, reconstruction, operation and maintenance of a system of wires,

SECURITY ABSTRACT COMPANY, Newkirk, Oklahoma

cables and fixtures, aerially supported by wood pole structures for the transmission of electric current at such voltages as Plaintiff may determine appropriate, together with telephone and telegraph messages incident to Plaintiff's business.

3.

That the Demand for Jury Trial hereto filed in this cause by Plaintiff and by Defendants are hereby withdrawn.

4.

IT IS THEREFORE ORDERED, ADJUDGED AND DECREED that the Plaintiff, Oklahoma Gas and Electric Company, have and recover judgment against the Defendants, condemning and vesting in Plaintiff a perpetual easement and right of way for the construction, reconstruction, operation and maintenance of an electric transmission system comprised of a system of wires and fixtures aerially suspended from and supported by structures for the transmission of electric current and energy at such voltages as may be desired by the Plaintiff, and the transmission of telegraph and telephone messages necessary in the operation of Plaintiff's electric transmission facilities over and across the following described tract of real property, to-wit:

A tract of land 100 feet in width over and across the East half of the Northwest Quarter (E/2 NW/4) of Section 13, Township 25 North, Range 1 East, Kay County, Oklahoma, being 50 feet in width on each side of a centerline described as commencing at a point on the west line of said E/2 NW/4 880 feet South of the northwest corner thereof and extending northeasterly in a straight line a distance of approximately 1440 feet to a point on the east line of said E/2 NW/4, 320 feet south of the northeast corner thereof.

SECURITY ABSTRACT COMPANY, Newkirk, Oklahoma

which easement and right of way shall include the right, privilege and authority of entering upon said tract of land for the purposes of erecting, operating, maintaining, rebuilding or removing said transmission line; the right to cut down, trim or remove any trees within the limits of said right of way and easement, and the right to remove any structure or obstruction now or hereafter located upon said right of way and easement which might interfere with or endanger said electric line or its mainenance and operation; and, in addition thereto, such other privileges as may be necessary or proper for the construction, reconstruction, maintenance, operation and removal of said electric transmission line system by the Plaintiff herein, its successors and assigns; that, notwithstanding the appropriation of the rights hereinbefore described, the above described land will not be fenced by the Plaintiff, and no permanent trails or roads will be extended across said property by Plaintiff, and no permanent openings maintained in the fences and the land shall, subject to the Plaintiff's easement and rights above described, remain the property of the owners thereof and be subject to their use for any purposes which are not inconsistent with the rights of the Plaintiff above set forth and which will not interfere with Plaintiff in the exercise of said rights.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the Report of Commissioners made and filed herein on the 19th day of October, 1979, be and the same is hereby approved and confirmed and the Court Clerk is hereby directed to disburse the

SECURITY ABSTRACT COMPANY, Newkirk, Oklahoma

Commissioners' award of \$5,500.00 previously deposited herein by
Plaintiff, to the Defendants named herein.

EASEMENT AGREEMENT

#16

④
14.00
500
400

For and in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration and covenants herein, the sufficiency of the consideration and covenants being acknowledged as good and sufficient consideration (collectively, the "Consideration"), Robert E. Steichen and Margaret L. Steichen, Trustees of the Steichen Family Revocable Living Trust dated October 16, 2012, whose mailing address is 1825 East Tonkawa, Tonkawa, OK 74631 (hereinafter called "Grantor") does hereby grant, sell, and convey unto Ceja Corporation, an Oklahoma Corporation, whose mailing address 1437 S. Boulder Ave., Suite 1250, Tulsa, OK 74119 (hereinafter called "Grantee"), a forty (40) year easement (the "Easement"), with reasonable renewal provisions at the end of the initial term, for the sole purposes, in connection with operation of certain oil and gas leases operated by Grantee, of surveying, laying, constructing, inspecting, maintaining, operating, repairing, replacing with the same size pipe or smaller size pipe, altering, reconstructing, removing, and abandoning one pipeline only, together with all fittings, cathodic protection equipment, pipeline markers and all other equipment and appurtenances thereto (collectively, the "Pipeline") (it being expressly understood, however, that this Easement is not a multi-use easement and shall not give Grantee the right to construct or operate above-ground facilities of any kind (unless expressly set for them in this agreement), for the specific transportation of salt water or natural gas in such pipeline within one trench through a strip of land sixteen and a half feet (16.5 ft) in width (the "Easement Area"), located on real property situated in the County of Kay, State of Oklahoma, owned by Grantor and described as follows:

16.6 ft wide strip running South from the SWSW of 13-T25N-R1E to a point approximately 400 ft South of the section line shared with the NWNW of 24-T25N-R1E

The aforesaid Easement is granted subject to the following terms, stipulations and conditions all of which are hereby covenanted and agreed to by Grantor and Grantee and shall be covenants that run with the land and binding and enforceable against Grantor and Grantee and their successors and assigns. By acceptance of any of the benefits under this Agreement, including without limitation the grant of the Easement herein, Grantee together with its successors and assigns shall be deemed to have agreed to be bound in all respects by the covenants applicable to Grantee hereunder.

1. The liabilities and responsibilities of Grantor and Grantee for claims for damages and losses relating to the Easement or the Easement Area are described in subparagraphs A and B below:
 - a. Grantee will pay all reasonable costs and expenses (including reasonable attorney's fees) that result from Grantee's, or anyone acting on Grantee's behalf, use of the Easement Area, including, but not limited to, damages cause by petroleum leaks and spills (including any substances transported through the pipeline), and damages to Grantor's crops, pastures, drainage systems, produce, natural springs, water wells, ground water, livestock, bridges, lanes, improvements, equipment, fences, structures, terraces, waterways or timber, except to the extent damages are cause by the gross negligence or willful gross misconduct of Grantor.
 - b. Grantor waives any claims, now and in the future, that challenge the validity of this Easement or that seek additional compensation relating to the granting of the Easement.
2. Grantee shall have the right to cut all fences to have access to the Easement Area for construction purposes only, and Grantee shall repair all such fences to at least their original condition promptly upon completion of construction on Grantor's Property. Before a fence is cut it shall be supported by an H-Frame brace on either side of contemplated opening. All fences which are cut or disturbed shall be repaired in a good and workmanlike manner acceptable to Grantor and shall be equal or better in quality than the existing fence. Grantee will be responsible for keeping all fences closed during the construction and maintenance of the Pipeline. If Grantor or assign's cattle escape from the premises as a result of the construction or maintenance of said line, Grantee will be responsible for all expenses in securing the livestock back on Property and any and all related actions arising from such occurrence(s).
3. Provided its use of the Easement does not in any manner interfere in any material respect with or prevent the exercise by Grantee of its rights hereunder, or create an actual or potential hazard to the pipeline or its

Ref: Ceja Corporation
1437S Boulder Ste 1250
Tulsa OK 74119

006516

BK1598PG0129

appurtenances Grantor, its successors, heirs or assigns, reserve the right to farm, graze and otherwise fully use and enjoy the Easement; provided, however, that Grantee shall have the right hereafter to cut, keep clear and remove all trees, brush, structures and other obstructions or facilities in the Easement Area being conveyed that are reasonably deemed by Grantee to injure, endanger or interfere in any manner with the proper and efficient construction, use, inspection or maintenance of the Pipeline as long as Grantor is notified prior to any clearing or removal operations and Grantor is properly compensated for any additional damage done to the Easement Area or adjacent property. Further, in the event of a dispute between Grantor and Grantee regarding Grantee's decision that a proposed or actual use by Grantor constitutes an unauthorized or disallowed use under this paragraph, the parties agree to submit the issue to a mediator agreed upon by Grantor and Grantee with the costs of its mediation to be paid one half each by Grantor and Grantee. If an agreed upon resolution is not reached, the parties may submit the issue to the applicable Court.

4. Grantee, at its expense, will remove all trash, cans, waste materials and other debris ("Debris") within five days after completion of construction of the Pipeline in the Easement Area and within five days after any subsequent work performed by Grantee in the Easement Area. If such Debris is not removed within such time period, Grantee will reimburse Grantor for all expenses incurred by Grantor to remove such Debris.
5. Grantee, at its expense, agrees to reseed and fertilize as many times as necessary, with the same native grass or improved pasture grass, existing on the Property to re-establish after construction a substantial stand on the Easement Area crossing any pasture land portion of Grantor's Property.
6. Except in case of emergency, ingress and egress to the Easement Area shall be limited to its terminal (entry and exit) points and existing public roadways unless otherwise agreed to in writing between Grantor and Grantee.
7. The Pipeline in the Easement Area shall be installed at a minimum depth of 48", measured from the top of the pipe to the surface of the ground and will meet or exceed applicable regulations for depth of cover.
8. During installation of the pipeline, as applicable, topsoil shall be stripped and stockpiled in a windrow along the right of way and replaced to pre-existing depth. Any excess subsoil or rocks in size exceeding 2: and exposed to the surface due to construction activity shall be removed from the easement to a location designated by or approved by the Grantor.
9. Should there be any terraces or conservation structures on the Property which are crossed by the Easement Area, then all such terraces or conservation structures shall be replaced and reconstructed to their pre-construction condition. All such work shall be at the Grantee's sole expense.
10. All waterways crossed by the Easement area shall be reconstructed and reseeded as many times as necessary to return the waterways to their pre-construction condition. All such work shall be at the Grantee's sole expense.
11. Any erosion damage (including, but not limited to, natural spring flow) occurring inside or outside of the subject Easement Area which is caused by the construction, maintenance or operation of the Pipeline shall be promptly repaired by Grantee, at its expense, for so long as the Easement remains in effect. Grantee agrees to provide Grantor with access to the lands, where erosion has occurred outside the Easement, without delay or additional added cost to repair such erosion.
12. Grantor shall not install other pipelines and utility lines across the Easement Area unless such installation complies with applicable laws and regulations and does not interfere or conflict with Grantee's rights hereunder. Prior to construction of such pipelines or utility lines across the Easement Area, Grantor shall provide to grantee for its review and approval detailed plans for the construction of such pipeline or utility lines.
13. No permanent above-ground equipment or appurtenances of any kind are to be placed by Grantee on said Easement Area except fence line markers.

BK 1598PG0130

14. Within five days following completion of construction, Grantee shall file with the county clerk of the county where the Property is located an "as built survey" drawing reflecting the actual location of the Pipeline. The filing made by Grantee with respect to the "as built survey" shall reference this Agreement and shall, if accurate, for all purposes, establish the location of the Easement.
15. Within sixty (6) days after installation of said Pipeline, weather and soil conditions permitting, Grantee shall repair and restore the Easement Area as nearly as possible to its original condition and contour and maintain the surface to prevent erosion and/or backfill sinking below original ground level in the Easement Area for a continuing period of at least 10 years subsequent to completion of the Pipeline construction, to the extent that such maintenance shall be for only those contour, backfill sinking and other surface issues that are a direct result of the installation of the pipeline or due to the presence of the pipeline. In connection with such maintenance Grantee agrees to reseed and/or re-sod as necessary to restore land to original condition. Grantee shall bear all the expense to satisfy these obligations.
16. Grantee, on its own behalf and on behalf of its successors, assigns, contractors and independent contractors (collectively the "Indemnitors") agree to hold harmless, defend, and indemnify Grantor, its lessees, invitees, permittees, successors and assigns (collectively the "Indemnitees") from and against any and all claims, losses, damages, costs and expenses incurred by Indemnitees (including without limitation, those incurred in enforcing Indemnitors' obligations hereunder) as a result of any Indemnitors construction, use, operation or maintenance of a pipeline on the Easement Area or any other authorized or unauthorized use of the Easement Area by any one of the Indemnitors.
17. Grantee hereby agrees to pay for all additional crop, surface, erosion and ground water (including natural springs) damages caused by its repair, maintenance or other operations which occur in the future after the initial construction of said pipeline. Said amount of additional damages to be paid by Grantee to Grantor shall be the actual damages per occurrence.
18. Should the Grantee decide to abandon the improvements in the Easement Area, the Grantee may, at its option, either leave the improvements in place or remove them. In the event the Grantee elects to remove the improvements, the Grantee shall restore the Easement Area as nearly as practicable to its condition prior to removal. In the event the Grantee elects to abandon the improvements in place, the Grantee shall comply with all laws, rules and regulations relating to such abandonment applicable at that time. In either event, Grantee will send to Grantor (or the current owner of the Easement Area), written notice of Grantee's intent and a date by which the improvements in the Easement Area will be abandoned.
19. If Grantee (i) fails to satisfy and discharge in any respect any of its undertaking, duties, and/or obligations provided in this Easement in accordance with this Easement and (ii) to promptly undertake and diligently prosecute all appropriate measures to promptly and correctly remedy and cure such failure after Grantee's receipt of written notice of such failure from Grantor, then in addition to all other damages, remedies, rights and recourses available under this Easement and/or applicable law to Grantor, Grantor shall be entitled to receive from Grantee, and Grantee shall promptly pay to Grantor all of Grantor's reasonable attorneys' fees incurred by or with respect to that failure and/or related to Grantor's enforcement of Grantor's rights and remedies under this Easement and/or applicable law.
20. Any payment hereunder may be made or mailed to Grantor at the address shown above.
21. All obligatory notice under this Agreement shall be in writing, addressed to addresses first set forth above and be delivered by certified mail, postage prepaid, and return receipt requested, next business day delivery via a reputable national courier service, regular United States mail, facsimile, e-mail or hand delivery. A party may change its address for notice by giving written notice of such change to the other party.
22. This Agreement shall be binding upon and enforceable against Grantor and Grantee and their respective heirs, executors, administrators, successors and assigns. The Easement granted hereby shall create a covenant and burden upon the Property and running therewith.

BK 1598PG0131

23. It is agreed that this Agreement constitutes the entire agreement between the parties and that no other agreements have been made modifying, adding to or changing the terms of the same. This Agreement shall not be abrogated, modified, rescinded or amended in whole or in part without the consent of Grantor and Grantee, in writing and executed by each of them, and duly recorded in the appropriate real property records.
24. The terms and conditions of the Easement granted herein shall be subject to all applicable laws, regulations and permit conditions.
25. This Agreement may be executed in counterparts, each of which shall be considered an original for all purposes; provided, however, that all such counterparts shall together constitute one and the same instrument.
26. The rights granted hereby to Grantee may be assigned by Grantee in whole, in Grantee's sole discretion.
27. This Agreement shall be governed by the laws of the State in which the Easement Area is situated.

IN WITNESS WHEREOF, Grantor has executed this Agreement as of the 18th of September, 2015.

FOR AND IN CONSIDERATION of the sum of Ten Dollars and no cents, the receipt of which is hereby acknowledged, Joseph C. Steichen and Helen Steichen, hereby referred to collectively as Grantor, hereby grants to Phillips Pipe Line Company, A Delaware Corporation, herein after referred to as Grantee, its successors and assigns, the right to lay, maintain, inspect, erect, operate, repair, replace with the same size pipe or a smaller size pipe which shall consist of a singular eighteen inch (18") pipeline and to remove the said pipeline at the sole discretion of Grantee, or as required by this agreement, or by law, including future governmental regulations, through, under, upon and across real property owned by Grantor located in Kay County, State of Oklahoma, legally described as follows, to-wit:

A 50 foot wide strip of land across the SW/4 SW/4 SE/4 NE/4, SW/4 NE/4, S/2 NW/4 NE/4 & W/2 NW/4 NW/4 NE/4 of Section 13, T25N, R1E, Kay County, Oklahoma, the pipeline route and Centerline of said 50 foot strip being more particularly described as follows:

Beginning at a point in the South line of the W/2 NE/4, W/2 E/2 NE/4 & W/2 W/2 E/2 NE/4, said point bears S89°03'W, a distance of 769 feet from the Southeast corner thereof;

Thence, N28°38'W along said line a distance of 1,587 feet; thence N89°39'W a distance of 650 feet.

Thence, N01°03'W with the said 50 foot wide strip of land being a 30 feet Westerly and 20 feet Easterly of said pipeline route a distance of 1000 feet to a point of termination in the North line of said tracts of lands, said point bears N89°03'E, a distance of 30 feet from the Northwest corner thereof;

IT IS MUTUALLY AGREED UPON BY THE PARTIES that the rights granted hereunder shall be confined to a seventy-five foot (75') construction easement and a 75' x 150' temporary work space easement, as more particularly described in the plat attached hereto as Exhibit A. Within sixty (60) days after completion of the construction of said line, Grantee shall dress, repair and restore the entire easement to a condition to as near as practicable to that which existed prior to Grantee's entry upon the premises; whereupon, the construction easement and temporary work space easement shall expire and Grantee shall thereupon immediately acquire, without further action, agreement or compensation, a permanent pipeline easement fifty feet (50') in width as shown on the plat attached hereto as Exhibit A.

KNOW ALL MEN BY THESE PRESENTS:

That Lois N. Cooper of Ponca City, OK and each and every other person whose name is signed hereto (hereinafter called Grantor, whether one or more, her heirs, executors, administrators, agents, successors or assigns), for and in consideration of the sum of One thousand and no/100 Dollars (\$ 1000.00) per year initial payment due within thirty (30) days from signing, balance payable annually prior to the end of each yearly period, does hereby exclusively grant, bargain, sell, convey, and warrant to CEJA Corporation, it's successors and assigns (hereinafter called "Grantee"), a right of the way easement for the term of twelve (12) years and as long thereafter as annual rentals are paid in a timely manner, such easement being Sixteen and one-half feet (16.5') in width as selected by Grantee on which to lay, construct, maintain, operate, repair, and remove an initial pipeline, and any additional pipelines desired by Grantee; for the transportation of natural gas or oil on, over, under, and through certain lands which the undersigned has an interest, situated in the County of Kay, State of Oklahoma. If said initial payment is not tendered within the thirty (30) day option period, this agreement is to be termed null and void, without notice. Said lands are more particularly described as follows:

Right of Way is to run east/west parallel to and adjacent to the northern boundary of the SW/4 of Section 18, T25N, R2E, thence south from the northeast corner of the property parallel to and adjacent to the eastern boundary to the Section Line a total distance of 5280'.

This grant shall carry with it the right to inspect (including aerial patrol) said pipelines and other appurtenances, and to mark the location of said right of way and easement by suitable markers set and maintained in the ground at locations which shall not interfere with such reasonable use as Grantor shall make of the lands within the limits of said right of way easement. Grantee shall have the right to use such lands of the Grantor adjacent to either side of the right of way as may reasonably be required by Grantee in connection with the construction, reconstruction, operation, maintenance,

testing, alterations of, change the size of, replacement or removal of the pipelines and other appurtenances, and the right of ingress to and egress from the said right of way across the lands of the Grantor for all purposes useful in connection with the exercise and enjoyment of the rights herein granted. As used herein, the term "pipeline" shall also include such surface or subsurface pipeline appurtenances and facilities (including metering equipment and dehydration facilities and connections with the right to fence a reasonable area surrounding such installations) as are necessary or convenient, in the judgment of Grantee, for the operation or maintenance of any such pipeline. Grantee agrees that any fencing erected on the property shall not exceed the easement boundary lines and shall not be of greater size than 15 feet by 15 feet square. Grantee further agrees that any fencing shall not be erected more than 100 feet from the boundary lines of the property as described above. Grantee agrees to notify Grantor in writing prior to the erection of any fencing or the installation of any surface appurtenances.

TO HAVE AND TO HOLD the above described rights and easement unto the Grantee, its successors and assigns, together with the right to assign the rights and right of way herein granted, either in whole or in part, subject to the terms of this Agreement.

The pipe and other appurtenances installed by Grantee within the right of way shall at all times remain the property of Grantee. In the event Grantee permanently abandons the pipelines, it shall remove the pipe and all other appurtenances at Grantee's expense. After removal of the pipe and other appurtenances the Grantee shall restore the surface of the ground so far as is practicable, to its condition prior to installation of the pipelines and communications and control cables.

Grantor reserves the right to full use and enjoyment of said premises, except for the purpose herein granted, provided that such use and enjoyment shall not hinder, conflict, or interfere with the exercise of Grantee's rights hereunder, and that no excavation, building, structure or obstructions shall be constructed on said right of way and easement without Grantee's written consent.

Grantee, insofar as it is practicable to do so, shall bury all pipe and communications and control cables to a sufficient depth at time of construction so as not to interfere unreasonably with the ordinary cultivation of the right of way easement and shall restore the surface of the ground so far as is practicable, to its condition prior to installation of the pipelines and communications and control cables.

In addition to the consideration specified above, Grantee shall pay Grantor the reasonable amount of actual damages to crops, timber, livestock, fences, tile drain, buildings, private roads, and other improvements, caused by it on said lands in the construction, reconstruction or maintenance of the pipelines and communications and control cables or in the exercise of the rights of ingress and egress. Grantee further agrees that upon completion of any work on said lands, the surface will be returned to or as near as practical to its' original condition prior to construction, reconstruction or maintenance.

Grantor represents, covenants, and warrants that such of the undersigned as are shown on record in the County in which said lands are located as owners in fee simple of the lands, are in fact the owners of such fee simple title, subject only to the outstanding encumbrances, if any, now on record in said County, including any railroad right of way easements.

It is hereby understood and agreed that the parties securing this grant on behalf of Grantee are without authority to make any covenant or agreement not herein expressed.

The payments authorized herein may be made by draft of Grantee's check either to Grantor personally or by mailing to Grantor's last known address. Upon proof of change of ownership, Grantee may make said payments to the successor (s) of Grantor.

The provisions hereof shall inure to the benefit of and be binding upon the parties hereto, their respective heirs, representatives, executors, administrators, successors, and assigns.

In WITNESS WHEREOF, these presents are hereby signed this 27th day of March, 2003.

WITNESS:

In the Matter of the Estate of
L. H. Wentz, Deceased.

No. 12583-A

MARJORIE L. CARVER, Court Clerk
By Grace L. Carver DEPUTY

ORDER CONFIRMING SALE OF REAL ESTATE

#21

Now on this 7th day of December, 1956, at the time and place specified in this Court's Order entered herein on the 26th day of November, 1956, setting and fixing this date for hearing this return of sale of real estate, comes on regularly for hearing the verified return of M. P. Long and T. W. Prentice, Executors of the Estate of L. H. Wentz, Deceased, filed herein by said Executors on the 26th day of November, 1956, showing their sale of the following described real estate situated in Kay County, Oklahoma.

All the real estate described in Schedule "A", attached to and made a part of this Order, to City of Ponca City, Oklahoma, a municipal Corporation for the sum of \$7,872.50

And for good cause shown, further hearing on said Return of Sale is continued to January 24, 1957, at 10:00 o'clock A.M.

The Court finds this the sale is made subject to certain restrictions covering a portion of the land described in Schedule "A" and that the Executors Deed issued pursuant to this Order shall recite such restrictions.

~~As the sum of \$~~
now, on January 24, 1957,

And the Court, having examined such verified return and other files in this cause, and having heard testimony of witnesses in relation to such return, sale, and sale proceedings, and upon consideration thereof, and the evidence, and being fully advised in the premises, finds:

That due and legal notice of this hearing upon such return has been given as required by law and the Order of this Court; and such notice and proof thereof is now by the Court approved.

That said Executors had full power and authority to make such sale, under the terms, powers and provisions of the last Will of L. H. Wentz, Deceased, heretofore duly admitted to probate herein; that the price received by said Executors for the sale of said property was fair and reasonable; that said sale was fairly conducted and legally made; and that said sale and the confirmation thereof are for the best interest of said estate; and that said sale should be approved and confirmed.

And no objections to the confirmation of said sale being made:

It is therefore ORDERED, ADJUDGED, and DECREED that said sale be, and the same is hereby confirmed, approved and declared valid; and ~~M. P. Long~~ and T. W. Prentice, Executors of the Estate of L. H. Wentz, Deceased, are hereby directed to execute proper and legal conveyance of said real property above described to said purchaser, City of Ponca City, a municipal corporation.

WITNESS my hand and the Seal of this Court this 24 day of January, 1957.

O. K.

Wesley D. Dumas
Attorney for Estate of L. H. Wentz, Deceased.

Walter M. Poffett
County Judge.

FOR PURCHASE FROM WENTZ ESTATE FOR
ROADWAY ALONG W. SIDE OF WEST LAKE POWCA

A portion of the S $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Section 18, T26N, R3E, 1.M.,
more particularly described as follows, to-wit:

Schedule A

Beginning at a point on the West line of said S $\frac{1}{2}$ of
the SW $\frac{1}{4}$, Section 18 and 1153.75 feet North of the
southwest corner of said S $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Section 18;
thence N. 67°-38' E. a distance of 197.73 feet;
thence S. 70°-03' E. a distance of 167 feet;
thence S. 81°-10' E. a distance of 115 feet;
thence S. 8°-55' W. a distance of 195.5 feet;
thence South a distance of 250.5 feet;
thence S. 6°-58' W. a distance of 92 feet;
thence S. 52°-00' E. a distance of 216.6 feet;
thence N. 52°-50' E. a distance of 111.3 feet;
thence N. 88°-05' E. a distance of 46.2 feet;
thence S. 61°-30' E. a distance of 73.4 feet;
thence S. 39°-10' E. a distance of 141 feet;
thence S. 15°-30' E. a distance of 338.3 feet;
thence S. 74°-19' E. a distance of 232 feet to
a point on the South line of said S $\frac{1}{2}$ of the SW $\frac{1}{4}$
of Section 18 and 1233.3 feet from the southwest
corner of said S $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Section 18;
thence West along said south line a distance of
1233.3 feet to the southwest corner of said S $\frac{1}{2}$
of the SW $\frac{1}{4}$, Section 18;
thence North along the West line of said S $\frac{1}{2}$ of the
SW $\frac{1}{4}$, Section 18 a distance of 1153.75 feet to the
point of beginning.
Containing 18.66 acres more or less.

AND

A portion of the SE $\frac{1}{4}$, NE $\frac{1}{4}$, and NW $\frac{1}{4}$ of Section 13, T26N, R2E,
1.M., more particularly described as follows, to-wit:

Beginning at a point on the East line of said
SE $\frac{1}{4}$ of Section 13 and 1153.75 feet North of the
southeast corner of said SE $\frac{1}{4}$ of Section 13;
thence N. 86°-26' W. a distance of 185.95 feet;
thence S. 81°-10' W. a distance of 281.95 feet;
thence N. 21°-43' E. a distance of 365.5 feet;
thence N. 36°-41' West a distance of 591.8 feet;
thence N. 20°-30' E. a distance of 171.50 feet;
thence N. 13°-37' W. a distance of 421.15 feet;
thence N. 39°-26' W. a distance of 456.15 feet;
thence S. 69°-03' W. a distance of 288.45 feet;
thence S. 26°-54' W. a distance of 685.5 feet;
thence S. 71°-41' W. a distance of 227.8 feet;
thence N. 28°-19' W. a distance of 300.15 feet;

_____ hereinafter referred to as Grantor,
does hereby grant unto Continental Pipe Line Company, a Delaware corporation having offices in Ponca City,
Oklahoma, hereinafter referred to as Grantee, its successors and assigns, the right to lay, maintain, inspect,
alter, repair, operate, protect, remove and relay a pipe line or pipe lines, for the transportation of oil and gas
and products and by-products thereof, water and other substances, and such drips, valves, fittings, meters
and other equipment and appurtenances as may be necessary or convenient for such operations and, if neces-
sary, to construct, maintain, operate, remove and replace communication and control facilities upon, over,
through and under the following described land situated in _____ Kay County,
State of Oklahoma to wit:

The East 30 Acres of the NE 1/4 Sec. 13, T25N; R1E, less Tracts 1 and 5.

_____ together with the rights of ingress and egress to and from said line or lines, or any of them, for the purposes
aforesaid, hereby releasing and waiving for the purpose of this grant all rights under and by virtue of the
dower, homestead and homestead exemption laws, if any, of said state.

Grantor shall have the right to fully use and enjoy the said premises except as the same may be neces-
sary for the purposes herein granted to the said Grantee; and Grantee hereby agrees to pay any damages which
may arise to crops, pasturage, fences or buildings of said Grantor from the exercise of the rights herein
granted. Grantee shall have the right to change the size of its pipes, the damages, if any, in making such
change to be paid by the said Grantee. Grantor agrees not to build, create or construct any obstruction, engi-
neering works, or other structure over said pipe line or lines nor permit same to be done by others.

Any pipe line or lines constructed by Grantee across lands under cultivation shall, at the time of con-
struction thereof, be buried to such depth as will not interfere with such cultivation, except that at option of
Grantee any such line may be placed above any stream, ravine, ditch, or other watercourse.

Should more than one line be laid under this grant at any time, an additional consideration, calculated on the same basis per lineal rod as the consideration hereinabove recited, shall be paid for each line so laid after the first line.

This Right of Way Agreement may be assigned by Grantee, its successors and assigns, in whole or in part, vesting in any other person, firm or corporation the ownership of one or more pipe lines or an undivided interest therein and/or communication lines, with full rights of ingress and egress for the maintenance, repair, operation, replacement and removal thereof.

The terms, conditions and provisions hereof shall extend to and be binding upon the heirs, executors, administrators, personal representatives, successors and assigns of the parties hereto.

FORM 428 11-59

RIGHT OF WAY AGREEMENT

THIS AGREEMENT, made and entered into by and between

John M. Steichen

hereinafter called the Grantor, and OKLAHOMA NATURAL GAS COMPANY, a corporation, hereinafter called the Grantee.
WITNESSETH, that said Grantor, for and in consideration of \$ 1.00 and other valuable considerations, the receipt of which is hereby acknowledged, does hereby grant to said Grantee, its successors and assigns, a permanent easement and right of way to lay, maintain, operate, relay and remove a pipe line, with fittings, tie-overs, cathodic protection equipment and other appurtenant appliances, with the right of ingress and egress to and from the same, over and through certain lands situated in the County of Kay

State of Oklahoma, and more particularly identified and described as follows, to-wit:

The North 70 feet of the West Half (W/2), East

Half (E/2), of the Northeast Quarter (NE/4) and

the West Half (W/2), West Half (W/2), East Half

(E/2), East Half (E/2), of the Northeast Quarter

(NE/4) of Section 13-T25N-R1E.

THIS RIGHT OF WAY GRANT IS MADE SUBJECT TO THE FOLLOWING:

1. That said Grantor is to fully use and enjoy said premises subject to the easement rights hereby granted, but Grantor agrees that it will not construct nor permit to be constructed any lakes, ponds, buildings or other structures of a permanent nature upon or over said right of way or within ten feet of the pipe line of Grantee without the written consent of Grantee.
2. That said Grantee hereby covenants to bury its pipe 24-inches below surface of the ground so that the same will not interfere with the cultivation of said premises.
3. That the Grantee shall have the right at any time to change the size of its pipe line and to cut, trim and keep clear all trees, brush and other obstructions that may injure, endanger or interfere with the construction, operation, maintenance or removal of said pipe line.
4. That the Grantee shall pay all damages to fences, crops, and premises, which may be suffered by reason of laying, relaying, maintaining, operating, or removing said line of pipe. If not mutually agreed upon, said damages are to be ascertained and determined by three disinterested persons, one thereof to be appointed by the owner of the premises, one by the Grantee, and the third by the two so appointed as aforesaid, and the award of two of such three persons shall be final and conclusive.

This right of way grant contains all of the agreements and stipulations between the Grantor and Grantee with respect to the granting of said easement, and the same shall inure to the benefit of and be binding upon the Grantor and Grantee and their respective heirs, successors and assigns.

This right of way to expire fifty (50) years from date.

IN WITNESS WHEREOF, the undersigned have executed this right of way agreement this 18 day of MARCH, 1970

John M. Steichen

FOR AND IN CONSIDERATION of the sum of one hundred sixty dollars and no/100 Dollars (\$ 160.00), in hand paid, the receipt of which is hereby acknowledged Joseph Cleo Steichen and Ruth Helen Steichen, Husband and Wife Don Weatherman

hereinafter referred to as Grantor does hereby grant unto Continental Pipe Line Company, a Delaware corporation having offices in Ponca City, Oklahoma, hereinafter referred to as Grantee, its successors and assigns, the right to lay, maintain, inspect, alter, repair, operate, protect, remove and relay a pipe line ~~across~~ under for the transportation of oil and gas and products and by-products thereof, water and other substances, and such drips, valves, fittings, meters and other equipment and appurtenances as may be necessary or convenient for such operations ~~and to erect, construct, maintain, operate, protect, remove and replace communication and control facilities upon, over, through and under the following described land situated in~~ upon, over, through and under the following described land situated in Kay County, State of Oklahoma to wit:

Township 25 North Range 1 East
Section 13 Lots Seven (7) through Twelve (12), both inclusive, in the
Southeast Quarter of the Northeast Quarter (SE/4 NE/4)

together with the rights of ingress and egress to and from said line ~~sections~~ sections, for the purposes aforesaid, hereby releasing and waiving for the purpose of this grant all rights under and by virtue of the dower, homestead and homestead exemption laws, if any, of said state.

Grantor shall have the right to fully use and enjoy the said premises except as the same may be necessary for the purposes herein granted to the said Grantee; and Grantee hereby agrees to pay any damages which may arise to crops, pasturage, fences or buildings of said Grantor from the exercise of the rights herein granted. Grantee shall have the right to change the size of its pipe; the damages, if any, in making such change to be paid by the said Grantee. Grantor agrees not to build, create or construct any obstruction, engineering works, or other structure over said pipe line ~~and~~ and nor permit same to be done by others.

Any pipe line ~~or other~~ or other constructed by Grantee across lands under cultivation shall, at the time of construction thereof, be buried to such depth as will not interfere with such cultivation,

The rights and privileges above granted are to continue so long as the pipe line is used to connect tank battery on said land. Upon such termination, if the presence of said line or facilities interferes with Grantor's use of the property, Grantor shall so notify Grantee which shall remove the same and restore the premises insofar as practicable to the condition in which Grantee received them within ninety days after receipt of such notice. The failure of Grantee to comply with such request within the time authorized shall result in the forfeiture to Grantor of Grantee's line, appurtenances, and other facilities and Grantor shall be authorized to remove said facilities and line at Grantee's expense, sell the salvaged line and facilities, and recover the remaining sums required for such removal, if any, from Grantee.

THIS COPY #27
TO BE ON PROJECT SITE
DURING CONSTRUCTION

PLEASE INDICATE TYPE OF INSTALLATION TO THE LEFT

This authority executed in the original and three copies this 27th day of Feb., 1987, by the State Department of Transportation, acting for and on behalf of the State of Oklahoma hereinafter called the Department, Witnesseth:

That the Department does by these presents, grant to:
Applicant POWDER RIVER PIPE LINE, INC.
Mailing Address Rt. #4, Box 150, Ponca City, Oklahoma 74601
Telephone 405-762-0229

A permit to erect, construct, and maintain a GAS PIPE LINE along, upon, or across the hereinafter said Highway(s) for the purpose of transporting, selling, and using SAFEGAS and shown on the attached drawing(s) and further described as follows:

LOCATION:
To CROSS U.S. 156 Approximately TWO AND ONE HALF miles
Cross or Parallel of OLD HWY 60 INTERSECTION
(N.E.S.W.) (Highway junction or other definite points)
and further described as: 2,665 feet SOUTH of the NORTH EAST
(N.E.S.W.)
Corner of Section 13 Township 25 NORTH Range 1 EAST
County KAY

The installation will be made in the following manner:
DRY BORING
(Boring, pushing, overhead crossing, and other description)
Size of line 2 in. PLASTIC Size of casing 4 in. STEEL

Before placing a utility facility on any Department right-of-way, a permit must be obtained, using standard forms furnished by the Department. All information requested on the form must be supplied. Drawings clearly illustrating work to be performed within the highway right-of-way and all other utility facilities in the area of this permit should be provided with the permit application. A plan view will be sufficient, except where a crossing of the highway is involved. Each highway crossing must be represented by an actual profile and cross-section view, regardless of the type of facility being installed or its function.

- This permit is granted subject to the following conditions, requirements, and covenants, to-wit:
1. Work to be performed on Department right-of-way must have the approval of the Department's Division Engineer, who must be notified when the work is to begin and when it is completed for final inspection. Under no circumstance will any work be done on Department right-of-way until approval has been obtained. No work will be done on Department right-of-way on Saturdays, Sundays or Holidays.
 2. One copy of the approved permit must be kept at the work site for inspection by the Division Engineer or his representative. The applicant will be required to have an inspector or engineer present at all times during construction to insure that installation is made in accordance with plans and specifications approved by the Department. No deviation from the approved plans and specifications will be made without the approval of the Department's Division Engineer.
 3. The applicant must agree to hold the State harmless for any damage or injury to persons or property caused by or resulting from the construction, maintenance, operation or repair of the facilities on, under, or over the Department right-of-way. The applicant must further agree to reimburse the Department for any repair of any damage to Department facilities caused by the construction, maintenance and/or operation of the facility.
 4. All work on Department right-of-way is to be done in accordance with the current, "Standard Specifications for Highway Construction". At the conclusion of such work, the right-of-way must be cleaned up and left in a presentable condition. Cleanup will include replacing any protective grass cover destroyed by trenching or the operation of any equipment, and correcting any other damage that may have been caused, as directed by the Division Engineer.
 5. The applicant must furnish all flagmen, lights, barricades, and warning signs deemed necessary by the Department of Transportation during the construction, maintenance, or repair of his facilities on Department right-of-way, as required by Department standards and the "Manual on Uniform Traffic Control Devices". In some cases, the applicant must post bond in an amount determined by the Division Engineer. Such bonds usually will not exceed \$10,000.00. Necessity of the bond will be determined by the Division Engineer and the bond will be held in his office until the right-of-way is in a presentable condition.
 6. When notified to do so by the Department, the applicant agrees to make all changes in the facilities on Department right-of-way at the applicant's own expense, unless otherwise provided by law or order of the Transportation Commission.
 7. Clearance above the traffic lanes of the highway at all pole line crossings should comply with applicable safety codes, and will not be less than 20 feet. All poles, posts, stubs, fixtures, down guys, wires, and other appurtenances must be kept in good repair at all times and free from weeds and brush within a 5 foot area of the installation. The facilities, when parallel to the highway, will be no more than 4 feet inside the right-of-way line, unless otherwise approved by the Division Engineer.
 8. All enclosed crossings are to have casing from right-of-way line to right-of-way line, be sealed at both ends and vented outside the right-of-way lines, unless otherwise approved by the Department. The top of the conduit will be a minimum of 48 inches below subgrade, but not less than 30 inches below the bottom of the ditches. The casing must be designed to sustain roadway loadings, contain and divert from the roadway the contents of the carrier pipe, and have a life expectancy equal to or greater than the carrier pipe. The vents should be sized to allow proper release of carrier pipe contents in case of failure. The minimum pipe size for vents is 2 inch nominal, and the vent must extend a minimum of 36 inches above natural ground level. The owner must install identification markers at each right-of-way line in direction and not more than 1000 foot intervals. The markers may be in the owner's standard design, but must identify the owner, steling address and telephone number, size of facility, and must be at least 130 sq. inches in area. They must also be erected at a location plainly visible from within the highway right-of-way.

All underground electric cables crossing a highway must be placed in a conduit and be a minimum of 48 inches below the ditch flow lines. Conduit placed beneath a roadway should be steel. PVC or fiberglass conduit may be used if it is designed to withstand highway loading and is properly protected. Mechanical protection such as preformed concrete slabs, is to be placed approximately 18 inches above the conduit and an advance warning plastic tape, clearly identifying the facility, placed in the trench approximately 1 foot above the mechanical protection.

Encasement for underground power lines, or similar facilities, should comply with the above, except for the installation of vents, end seals, and the ability to contain and divert.

Encasement for underground telephone lines is not required.

Steel pipelines crossing the right-of-way may be installed without encasement if the installation is in accordance with "Special Provisions for the Installation of Underground Pipelines..." This Special Provision stipulates in part that carrier pipe material within the right-of-way must be superior to the carrier pipe material outside the right-of-way by being of steel at least one grade better and of the same wall thickness, or a minimum of one wall thickness greater and of the same alloy. Pipe must be 48 inches below the flow line of drainage ditches and all other highway drainage facilities, and must be properly protected from corrosion.

Facilities, such as water and sanitary sewer lines, crossing the highway right-of-way may be approved without the use of encasement, if cast or ductile iron or material of equal design is used, with the understanding that maintenance will be performed by a method that will not disturb the through lanes or interfere with traffic. AC, PVC, Polyethylene or equivalent material lines will not be permitted without the use of a steel, or equivalent material conduit.

All underground crossings must be installed by boring or punching or other approved methods. The method and equipment for the installation must be approved by the Division Engineer. When boring beneath a roadway, water may be used provided the elevation is a minimum of 5 feet below the subgrade. Sufficient water for lubricating the bit is acceptable; however, jetting or pressure flushing of the bore will not be permitted. The alignment of the bore is to be established by drilling a pilot hole before beginning the full size bore. When water is used, the annular space outside the conduit or carrier pipe is to have grout placed at a minimum of 10 PSI, pressure to insure against cavities beneath the roadbed.

When larger diameter pipe/conduit is placed, construction should be done by either jacking, dry boring, or tunneling. When boring in cohesionless materials, jacking, dry boring, or tunneling shall be done in conjunction with the advancement of a conduit/pipe. When boring in Bentonite Clay or equivalent material, drilling mud shall be required at the ends of the bore for a minimum distance of 1 foot. A natural clay or concrete plug will be acceptable for other bores.

Time to complete a bore shall be kept within the limits of open boring or advancing a conduit that can be properly reamed and cleaned out within one working day. Under no circumstances shall muck or water be left standing inside the bore at the end of a working day, or due to a breakdown of equipment of more than eight hours.

If considered necessary, pressure grouting of the voids will be required when the diameter of any bore exceeds the outside diameter of the pipe by 2 inches or more. In the interest of safety, trenching and the parking of equipment shall be performed as far as possible from traffic lanes. In unusual cases where trenching is necessary a special plan with specifications, will be developed by the owner with assistance from the Division Engineer, setting out the method for controlling the traffic, placement of the facility and proper restoration of the roadway. The method must be approved by the Division Engineer and the Assistant Director for Land Acquisition.

Parallel facilities outside the control of access, but inside the right-of-way should be installed no more than 4 feet inside the right-of-way line unless approval is given by the Division Engineer. With the exception of power lines, all parallel buried facilities should be placed a minimum of 30 inches; 4 feet for power, below the surface of the ground. All nonferrous lines must have an electrically conductive wire, with test points, or other means of locating the pipe while it is underground. The ditch must be backfilled to a density equal to the adjacent soil, and a proper vegetative cover established on the area disturbed. Parallel overhead lines on all highway right-of-way should be limited to single pole construction. All crossings of a highway should be as nearly perpendicular as possible. Any deviation must be approved by the Division Engineer.

9. The applicant must agree to refrain from disturbing trees, shrubbery, or any part of the landscape without approval of the Division Engineer. If it becomes necessary to disturb trees or shrubbery, the applicant's intentions must be plainly stated in the application which will include size and kind of trees and shrubs, and disposition during installation.

10. Blasting will not be permitted within the highway right-of-way except in unusual cases and only with special approval from the Division Engineer.

11. The applicant must agree to notify all owners who have facilities in the area encompassed by this permit before beginning any work.

12. The applicant must agree to hold the Department of Transportation harmless for any and all damage that the utility facilities might sustain while occupying State highway right-of-way.

This permit may be revoked for noncompliance.

Delaware Corporation) CONSIDERATION \$10.00 & OVC

FOR AND IN CONSIDERATION of the sum of Ten Dollars and other valuable consideration, the receipt of which is hereby acknowledged, Joseph C. Steichen and Helen Steichen, hereby referred to collectively as Grantor, hereby grants to Phillips Pipe Line Company, A Delaware Corporation, herein after referred to as Grantee, its successors and assigns, the right to lay, maintain, inspect, erect, operate, repair, replace with the same size pipe or a smaller size pipe which shall consist of a singular eighteen inch (18") pipeline and to remove the said pipeline at the sole discretion of Grantee, or as required by this agreement, or by law, including future governmental regulations, through, under, upon and across real property owned by Grantor located in Kay County, State of Oklahoma, legally described as follows, to-wit:

A 50 foot wide strip of land across the SW/4 SW/4 SE/4 NE/4, SW/4 NE/4, S/2 NW/4 NE/4 & W/2 NW/4 NW/4 NE/4 of Section 13, T25N, R1E, Kay County, Oklahoma, the pipeline route and Centerline of said 50 foot strip being more particularly described as follows:

Beginning at a point in the South line of the W/2 NE/4, W/2 E/2 NE/4 & W/2 W/2 E/2 NE/4, said point bears S89°03'W, a distance of 769 feet from the Southeast corner thereof;

Thence, N28°38'W along said line a distance of 1,587 feet; thence N89°39'W a distance of 650 feet;

Thence, N01°03'W with the said 50 foot wide strip of land being a 30 feet Westerly and 20 feet Easterly of said pipeline route a distance of 1000 feet to a point of termination in the North line of said tracts of lands, said point bears N89°03'E, a distance of 30 feet from the Northwest corner thereof;

IT IS MUTUALLY AGREED UPON BY THE PARTIES that the rights granted hereunder shall be confined to a seventy-five foot (75') construction easement and a 75' x 150' temporary work space easement, as more particularly described in the plat attached hereto as Exhibit A. Within sixty (60) days after completion of the construction of said line, Grantee shall dress, repair and restore the entire easement to a condition to as near as practicable to that which existed prior to Grantee's entry upon the premises; whereupon, the construction easement and temporary work space easement shall expire and Grantee shall thereupon immediately acquiesce, without further action, agreement or compensation, a permanent pipeline easement fifty feet (50') in width as shown on the plat attached hereto as Exhibit A.

EASEMENT AGREEMENT

For and in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration and the covenants herein, the sufficiency of the consideration and covenants being acknowledged as good and sufficient consideration (collectively, the "Consideration"), Ruth Helen Steichen, whose mailing address is 6151 W. Fountain Road, Ponca City, OK 74601 (hereinafter called "Grantor") does hereby grant, sell, convey unto TRANSCANADA KEYSTONE PIPELINE, LP., a Limited Partnership having its principal place of business at 450 - 1 Street SW, Calgary, Alberta, Canada, T2P 5H1, its successors and assigns (hereinafter called "Grantee"), a perpetual easement (the "Easement") for the sole purposes of surveying, laying, constructing, inspecting, maintaining, operating, repairing, replacing with same size pipe or a smaller size pipe, altering, reconstructing, removing, and abandoning one thirty-six inch (36") pipeline only, together with all fittings, cathodic protection equipment, pipeline markers and all other equipment and appurtenances thereto (collectively, the "Pipeline") (it being expressly understood, however, that this Easement is not a multi-use easement and shall not give Grantee the right to construct or operate above-ground facilities of any kind unless expressly set forth in this agreement), for the transportation of oil, natural gas, hydrocarbon, petroleum products and all by-products thereof, on, under, across and/or through a strip of land 50 feet in width, as more particularly described in Exhibit A, which is attached hereto and made a part hereof (the "Easement Area"), located on real property situated in the County of Kay, State of Oklahoma owned by Grantor and described as follows: West Half (W/2) of the East Half (E/2) of the Northeast Quarter (NE/4) and the West Half (W/2) of the West Half (W/2) of the East Half (E/2) of the East Half (E/2) of the Northeast Quarter (NE/4) all in Section Thirteen (13), Township Twenty-Five (25) North, Range One (1) East of the Indian Meridian (the "Property"). In addition to the perpetual easement herein conveyed Grantor further conveys unto the Grantee temporary construction easements during the original construction of the Pipeline and the Easement shall also include the area described under the headings "Temporary Work Space" and "Additional Temporary Work Space" in Exhibit A hereto (the "Temporary Work Space Area"), such Temporary Work Space Area shall be identified and marked to ensure confinement to such area. Said Temporary Work Space Area shall become effective immediately upon entry by the Grantee of the premises for purposes related to commencing construction and shall automatically terminate upon conclusion of the construction project upon the premises. At the conclusion of construction upon the premises, Grantee shall record, at Grantee's sole cost and expense, a written release of Temporary Work Space Area sufficient in form for recording in the land records to effect a full and permanent release of the Temporary Work Space Area herein conveyed.

The aforesaid Easement is granted subject to the following terms, stipulations and conditions all of which are hereby covenanted and agreed to by Grantor and Grantee and shall be covenants that run with the land and binding upon and enforceable against Grantor and Grantee and their successors and assigns. By acceptance of any of the benefits under this Agreement, including without limitation, the grant of the Easement herein, Grantee together with its successors and assigns shall be deemed to have agreed to be bound in all respects by the covenants applicable to Grantee hereunder.

1. The liabilities and responsibilities of Grantor and Grantee for claims for damages and losses relating to the Easement, the Easement Area or Temporary Work Space Area are described in subparagraphs A and B below:

A. Grantee will pay all reasonable costs and expenses (including reasonable attorneys' fees) that result from Grantee's, or anyone acting on the Grantee's behalf, use of the Easement Area, including, but not limited to, damages caused by petroleum leaks and spills and damages to Grantor's crops, pastures, drainage systems, produce, natural springs, water wells, livestock,

SECURITY ABSTRACT COMPANY

bridges, lanes, improvements, equipment, fences, structures, terraces, waterways or timber, except to the extent the damages are caused by the gross negligence or willful gross misconduct of Grantor.

B. Grantor waives any claims, now and in the future, that challenge the validity of this Easement or that seek additional compensation relating to the grant of this Easement.

2. Grantee shall have the right to cut all fences to have access to the Easement Area and the Temporary Work Space Area, and Grantee shall repair all such fences to at least their original condition promptly upon completion of construction on Grantor's Property. Before a fence is cut it shall be supported by an H-Frame brace on either side of contemplated opening. All fences which are cut or disturbed shall be repaired in a good and workmanlike manner acceptable to Grantor and shall be equal or better in quality than the existing fence. Grantee will be responsible for keeping all fences closed during construction and maintenance of the Pipeline. If Grantor or assigns' cattle escape from the premises as a result of construction or maintenance of said line, Grantee will be responsible for all expenses in securing the livestock back on the Property and any and all related actions arising from such occurrence(s).
3. Provided its use of the Easement does not in any manner interfere in any material respect with or prevent the exercise by Grantee of its rights hereunder, or create an actual or potential hazard to the pipeline or its appurtenances, Grantor, her successors, heirs or assigns, reserves the right to farm, graze and otherwise fully use and enjoy the Easement; provided, however, that Grantee shall have the right hereafter to cut, keep clear and remove all trees, brush, structures and other obstructions or facilities in the Easement Area being conveyed that are reasonably deemed by Grantee to injure, endanger or interfere in any manner with the proper and efficient construction, use, inspection or maintenance of the Pipeline as long as Grantor is notified prior to any clearing or removal operations and Grantor is properly compensated for any additional damage done to the Easement Area. Further, in the event of a dispute between Grantor and Grantee regarding Grantee's decision that a proposed or actual use by Grantor constitutes an unauthorized or disallowed use under this paragraph, the parties agree to submit the issue to a mediator agreed upon by Grantor and Grantee with the costs of its mediation to be paid one half each by Grantor and Grantee. If an agreed upon resolution is not reached, the parties may submit the issue to the applicable Court.
4. Grantee, at its expense, will remove all trash, cans, waste materials and other debris ("Debris") within five days after completion of construction of the Pipeline in the Easement Area and Temporary Work Space Area and within five days after any other subsequent work performed by Grantee in the Easement Area. If such Debris is not removed within such time period, Grantee will reimburse Grantor for all expenses incurred by Grantor to remove such Debris.
5. Grantee, at its expense, agrees to reseed and fertilize as many times as necessary, with the same native grass or improved pasture grass existing on the Property, to reestablish after construction a substantial stand on the Easement Area and Temporary Work Space Area crossing any pasture land portion of Grantor's Property.
6. Except in case of emergency, ingress and egress to the Easement Area and Temporary Work Space Area shall be limited to its terminal (entry and exit) points and existing public roadways unless otherwise agreed to in writing between Grantor and Grantee.

7. The Pipeline in the Easement Area shall be installed at a minimum depth of 48", measured from the top of the pipe to the surface of the ground and will meet or exceed applicable regulations for depth of cover.
8. During installation of the pipeline, topsoil shall be stripped and stockpiled in a windrow along the right of way and replaced to pre-existing depths. Any excess subsoil or rocks in size exceeding 2" and exposed to the surface due to construction activity shall be removed from the easement to a location designated by or approved by the Grantor.
9. Should there be any terraces or conservation structures on the Property which are crossed by the Easement Area and Temporary Work Space Area, then all such terraces or conservation structures shall be replaced and reconstructed to their pre-construction condition. All such work shall be at the Grantee's sole expense.
10. All waterways crossed by the Easement Area shall be reconstructed and reseeded as many times as necessary to return the waterways to their pre-construction condition. All such work shall be at the Grantee's sole expense.
11. Any erosion damage (including, but not limited to, natural spring flow) occurring inside or outside of the subject Easement Area and Temporary Work Space Area which is caused by the construction, maintenance or operation of the Pipeline shall be promptly repaired by Grantee, at its expense for so long as the Easement remains in effect. Grantor agrees to provide Grantee with access to the lands, where erosion has occurred outside the Easement and Temporary Workspace Area, without delay or additional access cost to repair such erosion.
12. Grantor shall not install other pipelines and utility lines across the Easement Area unless such installation complies with applicable laws and regulations and does not interfere or conflict with Grantee's rights hereunder. Prior to construction of such pipelines and utility lines across the Easement Area, Grantor shall provide to Grantee for its review and approval detailed plans for the construction of such pipelines or utility lines.
13. No permanent above-ground equipment or appurtenances of any kind are to be placed by Grantee on said Easement Area except fence line markers.
14. Within five days following completion of construction, Grantee shall file with the county clerk of the county where the Property is located an "as built survey" drawing reflecting the actual location of the Pipeline. The Temporary Work Space Area easement shall expire and the permanent Easement Area shall solely exist. The filing made by Grantee with respect to the "as built survey" shall reference this Agreement and shall, if accurate, for all purposes, establish the location of the Easement.
15. Within sixty (60) days after installation of said Pipeline, weather and soil conditions permitting, Grantee shall repair and restore the Easement Area and Temporary Work Space Area as nearly as possible to its original condition and contour and maintain the surface to prevent erosion and/or backfill sinking below original ground level in the Easement Area and Temporary Work Space Area for a continuing period of at least 10 years subsequent to completion of the Pipeline construction, to the extent that such maintenance shall be for only those contour, backfill sinking and other surface issues that are a direct result of the installation of the pipeline or due to the presence of the pipeline. In connection with such maintenance Grantee agrees to reseed and/or resod as necessary to restore land to original condition. Grantee shall bear all the expense to satisfy these obligations.

16. Grantee, on its own behalf and on behalf of its successors, assigns, contractors and independent contractors (collectively the "Indemnitors") agree to hold harmless, defend, and indemnify Grantor, her lessees, invitees, permittees, successors and assigns (collectively the "Indemnitees") from and against any and all claims, losses, damages, costs and expenses incurred by Indemnitees (including without limitation, those incurred in enforcing Indemnitors' obligations hereunder) as a result of any Indemnitor's construction, use, operation or maintenance of a pipeline on the Easement Area or any other authorized or unauthorized use of the Easement Area by any one of the Indemnitors.
17. Grantee hereby agrees to pay for all additional crop, surface, erosion, and ground water (including natural springs) damages caused by its repair, maintenance or other operations which occur in the future after the initial construction of said pipeline. Said amount of additional damages to be paid by Grantee to Grantor shall be the actual damages per occurrence.
18. Should the Grantee decide to abandon the improvements in the Easement Area, the Grantee may, at its option, either leave the improvements in place or remove them. In the event the Grantee elects to remove the improvements, the Grantee shall restore the Easement Area as nearly as practicable to its condition prior to removal. In the event the Grantee elects to abandon the improvements in place, the Grantee shall comply with all laws, rules and regulations relating to such abandonment applicable at that time. In either event, Grantee will send to Grantor (or the current owner of the Easement Area) written notice of Grantee's intent and a date by which the improvements in the Easement Area will be abandoned.
19. If Grantee fails (i) to satisfy and discharge in any respect any of its undertakings, duties, and/or obligations provided in this Easement in accordance with this Easement and (ii) to promptly undertake and diligently prosecute all appropriate measures to promptly and correctly remedy and cure such failure after Grantee's receipt of written notice of such failure from Grantor, then in addition to all other damages, remedies, rights, and recourses available under this Easement and/or applicable law to Grantor, Grantor shall be entitled to receive from Grantee, and Grantee shall promptly pay to Grantor, all of Grantor's reasonable attorneys' fees incurred by or with respect to that failure and/or related to Grantor's enforcement of Grantor's rights and remedies under this Easement and/or applicable law.
20. Any payment hereunder may be made or mailed to Grantor at the address shown above.
21. All obligatory notices under this Agreement shall be in writing, addressed to the addresses first set forth above and be delivered by certified mail, postage prepaid, and return receipt requested, next business day delivery via a reputable national courier service, regular United States mail, facsimile, e-mail or hand delivery. A party may change its address for notice by giving written notice of such change to the other party.
22. This Agreement shall be binding upon and enforceable against Grantor and Grantee and their respective heirs, executors, administrators, successors and assigns. The Easement granted hereby shall create a covenant and burden upon the Property and running therewith.
23. It is agreed that this Agreement constitutes the entire agreement between the parties and that no other agreements have been made modifying, adding to or changing the terms of the same. This Agreement shall not be abrogated, modified, rescinded or amended in whole or in part without the consent of Grantor and Grantee, in writing and executed by each of them, and duly recorded in the appropriate real property records.

24. The terms and conditions of the Easement granted herein shall be subject to all applicable laws, regulations and permit conditions.
25. This Agreement may be executed in counterparts, each of which shall be considered an original for all purposes; provided, however, that all such counterparts shall together constitute one and the same instrument.
26. The rights granted hereby to Grantee may be assigned by Grantee in whole, in Grantee's sole discretion.
27. This Agreement shall be governed by the law of the State in which the Easement Area is situated.
- IN WITNESS WHEREOF, Grantor has executed this Agreement as of the 11TH day of February, 2010.

EASEMENT AGREEMENT

For and in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration and the covenants herein, the sufficiency of the consideration and covenants being acknowledged as good and sufficient consideration (collectively, the "Consideration"), **Ruth Helen Steichen**, whose address is 6151 W. Fountain Rd., Ponca City, Oklahoma 74601 (hereinafter called "Grantor") does hereby grant, sell, convey unto Tallgrass Pony Express Pipeline, LLC, a Delaware limited liability company having its principal place of business at 370 Van Gordon Street, Lakewood, Colorado 80228, its successors and assigns (hereinafter called "Grantee"), a perpetual, non-exclusive, easement (the "Easement") for the sole purposes of surveying, laying, constructing, inspecting, maintaining, operating, repairing, replacing with same size pipe or a smaller size pipe, altering, reconstructing, removing, and abandoning in place one twenty-four inch (24") pipeline only, together with all fittings, cathodic protection equipment, pipeline markers and all other equipment and appurtenances thereto (collectively, the "Pipeline") (it being expressly understood, however, that this Easement is not a multi-use easement and shall not give Grantee the right to construct or operate above-ground facilities of any kind unless expressly set forth in this agreement), for the transportation of oil, natural gas, hydrocarbon, petroleum products and all by-products thereof, on, under, across and/or through a strip of land 50 feet in width, being twenty-five feet (25') either side of a centerline as more particularly described in Exhibit A, which is attached hereto and made a part hereof (the "Easement Area"), located on real property situated in the County of Kay, State of Oklahoma owned by Grantor and described as follows:

The West Half of the East Half of the Northeast Quarter (W/2 E/2 NE/4) and the West Half of the West Half of the East Half of the East Half of the Northeast Quarter (W/2 W/2 E/2 E/2 NE/4) of Section Thirteen (13), Township Twenty-five (25) North, Range One (1) East of the Indian Meridian (the "Property").

In addition to the perpetual easement herein conveyed Grantor further conveys unto the Grantee temporary construction easements during the original construction of the Pipeline and the Easement described in Exhibit A hereto (the "Temporary Construction Easements"), such Temporary Construction Easements shall be identified and marked to ensure confinement to such area. Said Temporary Construction Easements shall become effective immediately upon entry by the Grantee of the premises for purposes related to commencing construction and shall automatically terminate upon conclusion of the construction and surface restoration activities upon the Property. At the conclusion of construction and surface restoration activities upon the Property, Grantee shall record, at Grantee's sole cost and expense, a written release of Temporary Construction Easements sufficient in form for recording in the land records to effect a full and permanent release of the Temporary Construction Easements herein conveyed.

The aforesaid Easement is granted subject to the following terms, stipulations and conditions all of which are hereby covenanted and agreed to by Grantor and Grantee and shall be covenants that run with the land and binding upon and enforceable against Grantor and Grantee and their successors and assigns. By acceptance of any of the benefits under this Agreement, including without limitation, the grant of the Easement herein, Grantee together with its successors and assigns shall be deemed to have agreed to be bound in all respects by the covenants applicable to Grantee hereunder.

1. The liabilities and responsibilities of Grantor and Grantee for claims for damages and losses relating to the Easement, the Easement Area or Temporary Construction Easements are described in subparagraphs A and B below:

A. Grantee will pay all reasonable costs and expenses (including reasonable attorneys' fees) that result from Grantee's, or anyone acting on the Grantee's behalf, use of the Easement Area, including, but not limited to, damages caused by petroleum leaks and spills (including any

substance transported within the pipeline) and damages to Grantor's crops, pastures, drainage systems, produce, natural springs, water wells, ground water, livestock, bridges, lanes, improvements, equipment, fences, structures, terraces, waterways or timber except to the extent the damages are caused by the sole negligence, gross negligence or willful misconduct of Grantor.

B. Grantor waives any claims, now and in the future that challenge the validity of this Easement or that seek additional compensation relating to the grant of this Easement.

2. Grantee shall have the right to cut all fences to have access to the Easement Area and the Temporary Construction Easements, and Grantee shall repair all such fences to at least their original condition promptly upon completion of construction and restoration activities on Grantor's Property. Before a fence is cut it shall be supported by an H-Frame brace on either side of contemplated opening. All fences which are cut or disturbed shall be repaired in a good and workmanlike manner reasonably acceptable to Grantor and shall be equal or better in quality than the existing fence. Grantee will be responsible for keeping all fences closed during construction and maintenance of the Pipeline. If Grantor or assigns' cattle escape from the premises as a result of construction or maintenance of said line, Grantee will be responsible for all expenses in securing the livestock back on the Property and any related actions arising from such occurrences.
3. Provided its use of the Easement complies with all applicable laws and regulations, and does not in any material manner interfere with, or prevent, the exercise by Grantee of its rights hereunder, or create an actual or potential hazard to the pipeline or its appurtenances, Grantor, his successors, heirs or assigns, reserves the right to farm, graze and otherwise fully use and enjoy the Easement; provided, however, that Grantee shall have the right hereafter to cut, keep clear and remove all trees, brush, structures and other obstructions or facilities in the Easement Area being conveyed that are reasonably deemed by Grantee to injure, endanger or interfere in any manner with the proper and efficient construction, use, inspection or maintenance of the Pipeline as long as Grantor is notified prior to any clearing or removal operations and Grantor is properly compensated for any additional damage done to the Easement Area. Further, Grantee agrees to consult with Grantor prior to any clearing or removal activities regarding the methods to be used by Grantee for such activities. Further, in the event of a dispute between Grantor and Grantee regarding Grantee's decision that a proposed or actual use by Grantor constitutes an unauthorized or disallowed use under this paragraph, the parties agree that at the request of the other party, the parties will submit the issue to a mediator agreed upon by Grantor and Grantee with the costs of its mediation to be paid one half each by Grantor and Grantee. If an agreed upon resolution is not reached, either party may submit the issue to the applicable Court, with the court costs, and the reasonable attorney fees of the other party, to be paid by the non-prevailing party.
4. Grantee, at its expense, will remove all trash, cans, waste materials and other debris ("Debris") within a reasonable period of time, but no later than one month, after completion of construction of the Pipeline in the Easement Area and Temporary Construction Easements, and within five days after any other subsequent work performed by Grantee in the Easement Area. If such Debris is not removed within such time period, Grantee will reimburse Grantor for all expenses incurred by Grantor to remove such Debris.
5. Grantee, at its expense, agrees to reseed and fertilize as many times as necessary, with the same native grass or improved pasture grass existing on the Property, to reestablish after construction a substantial stand on the Easement Area and Temporary Construction Easements crossing any pasture land portion of Grantor's Property.

6. Except in case of emergency, ingress and egress to the Easement Area and Temporary Construction Easements shall be limited to its terminal (entry and exit) points and existing public roadways unless otherwise agreed to in writing between Grantor and Grantee.
7. The Pipeline in the Easement Area shall be installed at a minimum depth of 48". In areas where rock is encountered which require Grantor to utilize a rock saw, rock hammer, ripper or involve blasting in order to dig the ditch for placement of the Pipeline, the Pipeline shall be installed at a minimum depth of 30".
8. During installation of the pipeline, topsoil shall be stripped and stockpiled in a windrow along the right of way and replaced to pre-existing depths. Any excess subsoil exposed to the surface due to construction activity shall be moved from the easement to a location upon Grantor's property designated by or approved by the Grantor. Further, Grantee agrees to remove rocks two (2) inches or greater in diameter from the surface of the easement area, which rocks are readily apparent from a surface inspection, and move such rocks to a location upon Grantor's property designated by or approved by the Grantor or crush such rocks on site. However, notwithstanding anything to the contrary herein contained, after final post construction surface clean-up, such rock removal shall not be required where the adjacent non-easement surface area is similar in appearance to the easement area, regardless of the size of the rocks on the surface.
9. Should there be any terraces or conservation structures on the Property which are crossed by the Easement Area and Temporary Construction Easements, then all such terraces or conservation structures shall be replaced and reconstructed insofar as is reasonably practicable to ensure such structures operationally function as intended. All such work shall be at the Grantee's sole expense.
10. All waterways crossed by the Easement Area shall be restored to their pre-construction condition insofar as is reasonably practicable to ensure such waterways operationally function as intended. All such work shall be at the Grantee's sole expense.
11. Any erosion damage (including, but not limited to, natural spring flow) occurring inside or outside of the subject Easement Area and Temporary Construction Easements which is a direct result of the construction, maintenance or operation of the Pipeline shall be promptly repaired by Grantee at its expense for so long as the easement remains in effect. Grantor agrees to provide Grantee with access to the lands, where erosion has occurred outside the Easement and Temporary Construction Easements, without delay or additional access cost to repair such erosion.
12. Grantor shall not install other pipelines and utility lines across the Easement Area unless such installation complies with applicable laws and regulations and does not in any material manner interfere with or prevent the exercise by Grantee of its rights hereunder, or create an actual or potential hazard to the pipeline or its appurtenances. Prior to construction of such other pipelines and utility lines across the Easement Area, Grantor shall provide to Grantee for its review detailed plans for the construction of such pipelines or utility lines to assure compliance with the terms of this Easement.
13. No permanent above-ground equipment or appurtenances of any kind are to be placed by Grantee on said Easement Area except pipeline markers, vent pipes and cathodic protection equipment as may be required by applicable rules and regulations or for the operational safety and maintenance of the pipeline. All such appurtenances shall be placed at fence lines insofar as is reasonably practicable, unless otherwise required by applicable law or regulation.
14. Grantee agrees to deliver to Grantor an as-built drawing reflecting the actual location of the Pipeline within a reasonable period of time after such as-built drawings are delivered to Grantee, which the Grantor and Grantee recognize and acknowledge will be an unknown period of time after construction is completed. Upon completion of the construction of the pipeline and facilities

hereunder and the cleanup and restoration after such work, the Temporary Construction Easements easement shall expire and the permanent Easement Area shall solely exist. The filing made by Grantee with respect to the "as built survey" shall reference this Agreement and shall, if accurate, for all purposes, establish the location of the Easement, it being the intention of the parties that the location of the Easement Area shall be 25 feet on either side of the Pipeline location as shown on the as-built drawings, and Grantee shall file of record a notice reflecting a revised Easement description.

15. As soon as is reasonably practicable, but no later than 180 days after installation of said Pipeline, weather and soil conditions permitting, Grantee shall repair and restore the Easement Area and Temporary Construction Easements as nearly as practicable to its condition and contour as existed immediately prior to Pipeline construction and Grantee shall take such further reasonable actions to prevent and/or control erosion and/or backfill sinking below the contour in the Easement Area and Temporary Construction Easements, as such contour existed immediately prior to Pipeline construction, Grantee shall continue to take such reasonable actions to maintain the contour and to control erosion in these areas, including any backfill sinking, for a continuing period of 10 years after construction of the Pipeline has been completed, insofar as such erosion or backfill issues are a direct result of the Pipeline construction. Grantee agrees to reseed (or use other methods, as reasonable), with a seed mix specified by Grantor as reasonably necessary to restore the disturbed area to its condition as existed immediately prior to Pipeline construction. Grantee shall bear all the expense to satisfy these obligations.
16. Grantee, on its own behalf and on behalf of its successors, assigns, contractors and independent contractors (collectively the "Indemnitors") agree to hold harmless, defend, and indemnify Grantor, its lessees, invitees, permittees, successors and assigns (collectively the "Indemnitees") from and against any and all claims, losses, damages, costs and expenses incurred by Indemnitees (including without limitation, those incurred in enforcing Indemnitors' obligations hereunder) as a result of any Indemnitor's construction, use, operation or maintenance of a pipeline on the Easement Area or any other authorized or unauthorized use of the Easement Area by any one of the Indemnitors.
17. Grantee hereby agrees to pay for all additional crop, surface, erosion, and ground water (including natural springs) damages caused by its repair, maintenance or other operations which occur in the future after the initial construction of said pipeline. Said amount of additional damages to be paid by Grantee to Grantor shall be the actual damages per occurrence.
18. Should the Grantee decide to abandon the improvements in the Easement Area, the Grantee may, at its option, either leave the improvements in place or remove them. In the event the Grantee elects to remove the improvements, the Grantee shall restore the Easement Area as nearly as practicable to its condition prior to removal. In the event the Grantee elects to abandon the improvements in place, the Grantee shall comply with all laws, rules, and regulations relating to such abandonment applicable at that time. In either event, Grantee will send to Grantor (or the current owner of the Easement Area) written notice of Grantee's intent and a date by which the improvements in the Easement Area will be abandoned.
19. If Grantee fails (i) to satisfy and discharge in any respect any of its undertakings, duties, and/or obligations provided in this Easement in accordance with this Easement and (ii) to promptly undertake and diligently prosecute all appropriate measures to promptly and correctly remedy and cure such failure after Grantee's receipt of written notice of such failure from Grantor, then in addition to all other damages, remedies, rights, and recourses available under this Easement and/or applicable law to Grantor, Grantor shall be entitled to receive from Grantee, and Grantee shall promptly pay to Grantor, all of Grantor's reasonable attorneys' fees incurred by or with respect to that failure and/or related to Grantor's enforcement of Grantor's rights and remedies under this Easement and/or applicable law.

20. Any payment hereunder may be made or mailed to Grantor at the address shown above.
21. All obligatory notices under this Agreement shall be in writing, addressed to the addresses first set forth above and be delivered by certified mail, postage prepaid, and return receipt requested, next business day delivery via a reputable national courier service, regular United States mail, facsimile, or hand delivery. A party may change its address for notice by giving written notice of such change to the other party.
22. This Agreement shall be binding upon and enforceable against Grantor and Grantee and their respective heirs, executors, administrators, successors and assigns. The Easement granted hereby shall create a covenant and burden upon the Property and running therewith.
23. It is agreed that this Agreement constitutes the entire agreement between the parties and that no other agreements have been made modifying, adding to or changing the terms of the same. This Agreement shall not be abrogated, modified, rescinded or amended in whole or in part without the consent of Grantor and Grantee, in writing and executed by each of them, and duly recorded in the appropriate real property records.
24. The terms and conditions of the Easement granted herein shall be subject to all applicable laws, regulations and permit conditions.
25. This Agreement may be executed in counterparts, each of which shall be considered an original for all purposes; provided, however, that all such counterparts shall together constitute one and the same instrument.
26. The rights granted hereby to Grantee may be assigned by Grantee in whole or in part, in Grantee's sole discretion.
27. This Agreement shall be governed by the law of the State in which the Easement Area is situated.

IN WITNESS WHEREOF, Grantor has executed this Agreement as of the 12th day of June, 2013.

GRANTOR:

Ruth Helen Steichen
Ruth Helen Steichen

STATE OF Oklahoma)
COUNTY OF King) ss.

On this 12 day of June, in the year 2013, before me, the undersigned notary public, personally appeared Ruth Helen Steichen, known to me to be the persons whose names are subscribed to the within instrument, and acknowledged that they executed the same for the purposes therein contained.

In Witness Whereof, I hereunto set my hand and official seal. The foregoing instrument was acknowledged before me this 12 day of June, 2013.

My commission expires: 8/3/15 Michael Koonce

EXHIBIT A **TALLGRASS PONY EXPRESS PIPELINE EASEMENT**

LEGAL DESCRIPTION

A centerline description for a 50 foot wide permanent easement, being 25 feet, as measured perpendicular, left and right of said centerline and having a Basis of Bearing based on the Universal Transverse Mercator Zone 14 North, North American Datum of 1983 and being a part of the West Half of the East Half of the Northeast Quarter of Section 13, Township 25 North, Range 1 East of the Indian Meridian, Kay County, State of Oklahoma, and also being a part of that parcel of land owned by Ruth Helen Steichen (Grantor[s] Land), as recorded in Book 1607, Page 612, Public Records of Kay County, Oklahoma, said centerline being further described by Ty Olinghouse P.L.S. No. 1721 on January 18, 2013 as follows;

COMMENCING at the Northwest Corner of said Section 13 a found PK nail; THENCE North 89°28'32" East along the North line of said Section 13, a distance of 4508.05 feet to the POINT OF BEGINNING; THENCE South 01°04'35" East along said centerline, a distance of 197.58 feet to a point; THENCE South 00°39'51" West, a distance of 400.03 feet to a point; THENCE South 00°38'31" West, a distance of 2042.18 feet to a point on the South line of said Northeast Quarter of Section 13, and the POINT OF TERMINATION, from which the Southwest Corner of the Northwest Quarter of said Section 13, a found 2 inch pipe, bears South 89°38'12" West, a distance of 1794.30 feet and South 89°29'25" West, a distance of 2633.48 feet.

The sidelines of said easement are shortened or lengthened to meet at angle points and to begin and terminate on boundary lines, said permanent easement containing 3.03 acres, more or less.

TEMPORARY WORKSPACE

A 35 foot wide temporary workspace for construction purposes, over and across that part of the Grantor[s] Land which lies 35 feet easterly of, as measured perpendicular to, and adjoining the easterly line of said permanent easement. The side lines of said temporary work space are to be shortened or lengthened to meet at angle points and to begin and terminate on boundary lines, said temporary work space containing 2.12 acres, more or less.

TEMPORARY WORKSPACE

A 15 foot wide temporary workspace for construction purposes, over and across that part of the Grantor[s] Land which lies 15 feet westerly of, as measured perpendicular to, and adjoining the westerly line of said permanent easement. The side lines of said temporary work space are to be shortened or lengthened to meet at angle points and to begin and terminate on boundary lines, said temporary work space containing 0.91 acres, more or less.

ADDITIONAL TEMPORARY WORKSPACE

Additional temporary work space(s) for construction purposes adjoining the temporary workspace as shown on the accompanying exhibit, containing 1.13 acres, more or less.

Bearings are based on UTM Zone 14 North, NAD-83. All distances are represented in grid values, measured in U.S. Survey feet, and are based on said Horizontal Datum.

I, TY OLINGHOUSE, HEREBY CERTIFY THAT THIS SURVEY WAS MADE ON THE GROUND UNDER MY SUPERVISION AND THAT THIS EXHIBIT IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND BELIEF.

TRANSMISSION LINE EASEMENT

The Grantor herein so styled, RUTH HELEN STEICHEN, OF 6151 WEST FOUNTAIN ROAD, PONCA CITY, OK 74601 for good and valuable consideration, the receipt of which is hereby acknowledged, hereby grant, bargain, sell and convey to WESTERN FARMERS ELECTRIC COOPERATIVE, a cooperative corporation organized under the laws of the State of Oklahoma (hereinafter called the "Cooperative"), and to its successors and assigns, a perpetual easement and right to enter upon the land of the Grantor, situated in the County of KAY, State of Oklahoma, further described as:

#31

THE ONE-HUNDRED (100) FOOT STRIP OF LAND LYING IN THE WEST HALF (W/2) AND THE WEST 50 acres (W/50 acres) OF THE EAST HALF (E/2) OF THE NORTHEAST QUARTER (NE/4) OF SECTION THIRTEEN (13), TOWNSHIP TWENTY-FIVE (25) NORTH, RANGE ONE (1) EAST OF THE INDIAN MERIDIAN, KAY COUNTY, STATE OF OKLAHOMA.

to erect, operate, maintain, repair, rebuild, replace and patrol on said land and in and upon all streets, roads, or highways abutting said lands, one (1) electric transmission line and appurtenant signal lines, poles, towers, wires, cables and appliances necessary in connection therewith, together with the right of ingress, egress and regress to, over and from said lands, for doing anything necessary or useful to the enjoyment of the easement herein granted. Specifically included in this electric transmission line easement for the useful enjoyment thereof is the Cooperative's perpetual right to trim, clear and remove brush, timber, structures, improvements and anything deemed by the Cooperative to be a hazard, or potential hazard, located within the (100) foot easement, said decision to be exclusively that of the Cooperative.

The Grantor hereby agree that they will not construct, nor permit to be constructed, any ponds, lakes, buildings, structures or other improvements upon, over or across said easement without the written consent of the Cooperative, or permit any construction activity or installation that will violate any national, state, city or other code applicable to the electric transmission line(s) or related facilities situated on said easement. Any improvements or structures placed or erected on the easement without the express written consent of the Cooperative shall be considered an encroachment thereon, strictly prohibited, and subject to removal by or at the direction of the Cooperative.

The Grantor compensation as referenced herein includes payment for the easement, original construction damages, and payment for trees or all timber, including danger timber, as designated by the Cooperative, on or adjacent to said easement. In addition, the Cooperative agrees to pay actual damages to crops, grass and fences occasioned by the operation, maintenance, repair, rebuild, replacement and patrol of said electric transmission line.

The Grantor further agree that all poles, wires and facilities installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative and are removable at the option of the Cooperative.

The Grantor covenant to and with the Cooperative that subject to existing easements and encumbrances of record covering the land hereinabove described, the Grantor are lawfully seized and possessed of said land and have the lawful right and power to grant, bargain, sell and convey said perpetual easement as described herein and right to enter upon the lands described herein for the purposes stated.

Exhibit (A) is attached to this easement agreement and made a part of such agreement.

More particularly described on attached plat known as exhibit (B) to this easement agreement and made a part of such agreement.

IN WITNESS WHEREOF, the Grantor(s) have executed this instrument on the 22nd day of October, A.D., 201 3.

Ruth Helen Steichen
RUTH HELEN STEICHEN

ACKNOWLEDGMENT

STATE OF Oklahoma COUNTY OF Kay

On the 22nd day of Oct, A.D., 201 3, before me, a Notary Public in and for said county and state, personally appeared Ruth Helen Steichen to me known to be the identical person(s) named in and who executed the foregoing instrument and acknowledged that she executed the same as voluntary act and deed.

Given under my hand and seal the day and year last above written.

SECURITY ABSTRACT COMPANY
BOOK 1631 PAGE 508

EXHIBIT (A)

The aforesaid Easement is granted subject to the following terms, stipulations and conditions all of which are hereby covenanted and agreed to by Grantor and Grantee (Cooperative) and shall be covenants that run with the land and binding upon and enforceable against Grantor and Grantee (Cooperative) and their successors and assigns. By acceptance of any of the benefits under this Agreement, including without limitation, the grant of the Easement herein, Grantee (Cooperative) together with its successors and assigns shall be deemed to have agreed to be bound in all respects by the covenants applicable to Grantee (Cooperative) hereunder.

The liabilities and responsibilities of Grantor and Grantee (Cooperative) for claims for damages and losses relating to the Easement are described in paragraphs below:

1. Grantee will pay all reasonable costs and expenses (including reasonable attorneys' fees) that result from Grantee's, or anyone acting on the Grantee's behalf, use of the Easement Area, including, but not limited to, damages to Grantor's crops, pastures, drainage systems, produce, natural springs, water wells, ground water, livestock, bridges, lanes, improvements, equipment, fences, structures, terraces, waterways, and timber except to the extent the damages are caused by the gross negligence or willful gross misconduct of Grantor.
2. Grantee shall have the right to construct permanent gate structures in any fence in order to obtain access to the Easement Area, and Grantee shall repair all such fences to at least their original condition promptly upon completion of construction on Grantor's Property. Before a fence is cut it shall be supported by an H-Frame brace on either side of contemplated opening. All fences which are cut or disturbed shall be repaired in a good and workmanlike manner acceptable to Grantor and shall be equal or better in quality than the existing fence. Grantee will be responsible for keeping all fences closed during construction and maintenance of the transmission line. If Grantor or assigns' cattle escape from the premises as a result of construction or maintenance of said line, Grantee will be responsible for all expenses in securing the livestock back on the Property and any and all related actions arising from such occurrence(s).
3. Provided its use of the Easement does not in any manner interfere in any material respect with or prevent the exercise by Grantee of its rights hereunder, or create an actual or potential hazard to the transmission line or its appurtenances, Grantor, his successors, heirs or assigns, reserves the right to farm, graze and otherwise fully use and enjoy the Easement; provided, however, that Grantee shall have the right hereafter to cut, keep clear and remove all trees, brush, structures and other obstructions or facilities in the Easement Area being conveyed that are reasonably deemed by Grantee to injure, endanger or interfere in any manner with the proper and efficient construction, use, inspection or maintenance of the transmission line as long as Grantor is notified prior to any clearing or removal operations and Grantor is properly compensated for any additional damage done to the Easement Area. Further, in the event of a dispute between Grantor and Grantee regarding Grantee's decision that a proposed or actual use by Grantor constitutes an unauthorized or disallowed use under this paragraph, the parties agree to submit the issue to a mediator agreed upon by Grantor and Grantee with the costs of its mediation to be paid one half each by Grantor and Grantee. If an agreed upon resolution is not reached, the parties may submit the issue to the applicable Court.
4. Grantee, at its expense, will remove all trash, cans, waste materials and other debris ("Debris") within (90) days after completion of construction of the transmission line in the Easement Area and within (90) days after any other subsequent work performed by Grantee in the Easement Area. If such Debris is not removed within such time period, Grantee will reimburse Grantor for all expenses incurred by Grantor to remove such Debris.
5. Grantee, at its expense, agrees to reseed and fertilize as many times as necessary, with the same native grass or improved pasture grass existing on the Property, to reestablish after construction a substantial stand on the Easement Area crossing any pasture land portion of Grantor's Property.
6. Except in case of emergency, ingress and egress to the Easement Area shall be limited to its terminal (entry and exit) points and existing public roadways unless otherwise agreed to in writing between Grantor and Grantee.
7. Should there be any terraces or conservation structures on the Property which are crossed by the Easement Area, and then all such terraces or conservation structures shall be replaced and reconstructed to their pre-construction condition. All such work shall be at the Grantee's sole expense.
8. All waterways crossed by the Easement Area shall be reconstructed and reseeded as many times as necessary to return the waterways to their pre-construction condition. All such work shall be at the Grantee's sole expense.

9. Any erosion damage (including, but not limited to, natural spring flow) occurring inside or outside of the subject Easement Area, which is caused by the construction, maintenance or operation of the transmission line shall be promptly repaired by Grantee at its expense for so long as the easement remains in effect. Grantor agrees to provide Grantee with access to the lands, where erosion has occurred outside the Easement, without delay or additional access cost to repair such erosion.
10. Grantor shall not install other transmission lines and utility lines across the Easement Area unless such installation complies with applicable laws and regulations and does not interfere or conflict with Grantee's rights hereunder. Prior to construction of such transmission lines and utility lines across the Easement Area, Grantor shall provide to Grantee for its review and approval detailed plans for the construction of such transmission lines or utility lines.
11. Within (90) days following completion of construction, Grantee shall file with the county clerk of the county where the Property is located an "as built survey" drawing reflecting the actual location of the transmission line. The permanent Easement Area shall solely exist. The filing made by Grantee with respect to the "as built survey" shall reference this Agreement and shall, if accurate, for all purposes, establish the location of the Easement.
12. Within (180) days after installation of said transmission line, weather and soil conditions permitting, Grantee shall repair and restore the Easement Area nearly as possible to its original condition and contour to maintain the surface in order to prevent erosion. In connection with such maintenance Grantee agrees to reseed and/or resod as necessary to restore land to original condition. Grantee shall bear all the expense to satisfy these obligations.
13. Grantee, on its own behalf and on behalf of its successors, assigns, contractors and independent contractors (collectively the "Indemnitors") agree to hold harmless, defend, and indemnify Grantor, its lessees, invitees, permittees, successors and assigns (collectively the "Indemnitees") from and against any and all claims, losses, damages, costs and expenses incurred by Indemnitees (including without limitation, those incurred in enforcing Indemnitors' obligations hereunder) as a result of any Indemnitor's construction, use, operation or maintenance of a transmission line on the Easement Area or any other authorized or unauthorized use of the Easement Area by any one of the Indemnitors.
14. Grantee hereby agrees to pay for all additional crop, surface, erosion, and ground water (including natural springs) damages caused by its repair, maintenance or other operations which occur in the future after the initial construction of said transmission line. Said amount of additional damages to be paid by Grantee to Grantor shall be the actual damages per occurrence.
15. Should the Grantee decide to abandon the improvements in the Easement Area, the Grantee may, at its option, either leave the improvements in place or remove them. In the event the Grantee elects to remove the improvements, the Grantee shall restore the Easement Area as nearly as practicable to its condition prior to removal. In the event the Grantee elects to abandon the improvements in place, the Grantee shall comply with all laws, rules, and regulations relating to such abandonment applicable at that time. In either event, Grantee will send to Grantor (or the current owner of the Easement Area) written notice of Grantee's intent and a date by which the improvements in the Easement Area will be abandoned.
16. If Grantee fails (i) to satisfy and discharge in any respect any of its undertakings, duties, and/or obligations provided in this Easement in accordance with this Easement and (ii) to promptly undertake and diligently prosecute all appropriate measures to promptly and correctly remedy and cure such failure after Grantee's receipt of written notice of such failure from Grantor, then in addition to all other damages, remedies, rights, and recourses available under this Easement and/or applicable law to Grantor, Grantor shall be entitled to receive from Grantee, and Grantee shall promptly pay to Grantor, all of Grantor's reasonable attorneys' fees incurred by or with respect to that failure and/or related to Grantor's enforcement of Grantor's rights and remedies under this Easement and/or applicable law.
17. Any payment hereunder may be made or mailed to Grantor at the address fore mentioned.
18. All obligatory notices under this Agreement shall be in writing, addressed to the addresses first set forth fore mentioned and be delivered by certified mail, postage prepaid, and return receipt requested, next business day delivery via a reputable national courier service, regular United States mail, facsimile, e-mail or hand delivery. A party may change its address for notice by giving written notice of such change to the other party.
19. This Agreement shall be binding upon and enforceable against Grantor and Grantee and their respective heirs, executors, administrators, successors and assigns. The Easement granted hereby shall create a covenant and burden upon the Property and running therewith.

20. It is agreed that this Agreement constitutes the entire agreement between the parties and that no other agreements have been made modifying, adding to or changing the terms of the same. This Agreement shall not be abrogated, modified, rescinded or amended in whole or in part without the consent of Grantor and Grantee, in writing and executed by each of them, and duly recorded in the appropriate real property records.
21. The terms and conditions of the Easement granted herein shall be subject to all applicable laws, regulations and permit conditions.
22. This Agreement may be executed in counterparts, each of which shall be considered an original for all purposes; provided, however, that all such counterparts shall together constitute one and the same instrument.
23. The rights granted hereby to Grantee may be assigned by Grantee in whole, in Grantee's sole discretion.
24. This Agreement shall be governed by the law of the State of Oklahoma.

IN WITNESS WHEREOF, Grantor has executed this Agreement as of this 22nd day of October, 2013.

Tammy Reese - Kay County Clerk
State of Oklahoma

KNOW ALL MEN BY THESE PRESENTS:

That Tallgrass Pony Express Pipeline, LLC, a Delaware limited liability company having its principal place of business at 370 Van Gordon Street, Lakewood, Colorado 80228 (hereinafter called "Tallgrass"), is the Grantee in an easement agreement (hereinafter "Easement Agreement") dated the 12th day of June, 2013, between Ruth Helen Steichen, as Grantor and Tallgrass recorded in Book 1613 at Page 832 of the records of Kay County, Oklahoma covering an Easement Area located on real property situated in Kay County, Oklahoma and described as follows:

The West Half of the East Half of the Northeast Quarter (W/2 E/2 NE/4) and the West Half of the West Half of the East Half of the Northeast Quarter (W/2 W/2 E/2 NE/4) of Section Thirteen (13), Township Twenty-Five (25) North, Range One (1) East of the Indian Meridian (the "Property").

The Easement Agreement provides in relevant part as follows:

..... Temporary Construction Easements shall become effective immediately upon entry by the Grantee of the premises for purposes related to commencing construction and shall automatically terminate upon conclusion of the construction and surface restoration activities upon the Property. At the conclusion of construction and surface restoration activities upon the Property, Grantee shall record, at Grantee's sole cost and expense, a written release of Temporary Construction Easements sufficient in form for recording in the land records to effect a full and permanent release of the Temporary Construction Easements herein conveyed...

14. Grantee agrees to deliver to Grantor an as-built drawing reflecting the actual location of the Pipeline within a reasonable period of time after such as-built drawings are delivered to Grantee, which the Grantor and Grantee recognize and acknowledge will be an unknown period of time after construction is completed. Upon completion of the construction of the pipeline and facilities hereunder and the cleanup and restoration after such work, the Temporary Construction Easements easement shall expire and the permanent Easement Area shall solely exist. The filing made by Grantee with respect to the "as built survey" shall reference this Agreement and shall, if accurate, for all purposes, establish the location of the Easement, it being the intention of the parties that the location of the Easement Area shall be 25 feet on either side of the Pipeline location as shown on the as-built drawings, and Grantee shall file of record a notice reflecting a revised Easement description.

Tallgrass hereby gives notice of the completion of construction of the Easement and surface restoration activities upon the Property and further gives notice that the Easement Area is on, under,
Sheet No. **151** SECURITY ABSTRACT COMPANY
BOOK 1673 PAGE 810

across and/or through a strip of land 50 feet in width, being 25 feet on either side of a centerline as more particularly described on Exhibit "A" attached hereto and made a part hereof which is an "as built survey" reflecting the actual location of the Pipeline.

Tallgrass hereby acknowledges that the Temporary Construction Easements granted and referenced in the Easement Agreement have automatically expired in accordance with the relevant language set forth in the Easement Agreement and, to the extent necessary, Tallgrass does hereby fully and permanently release the Temporary Construction Easements conveyed in the Easement Agreement.

Capitalized terms utilized herein shall have the same meaning as defined in the Easement Agreement.

IN WITNESS WHEREOF, Tallgrass has executed this Notice of Construction of Pipeline Easement and Expiration and Release of Temporary Construction Easements this 17th day of SEPTEMBER, 2014, but effective on the date filed of record in the Clerk's Office of Kay County, Oklahoma.

EXHIBIT "A"

EXHIBIT TALLGRASS PONY EXPRESS ASBUILT PIPELINE EASEMENT

EASEMENT DESCRIPTION

A centerline description for a 50 foot wide permanent easement, being 25 feet, as measured perpendicular, left and right of said centerline and being a part of the West Half of the East Half of the Northeast Quarter (W/2 E/2 NE/4) of Section 13, Township 25 North, Range 1 East of the Indian Meridian, Kay County, State of Oklahoma, being a part of that parcel of land owned by Ruth Helen Steichen (Grantor[s] Land), as recorded in Book 1507, Page 612, Public Records of Kay County, Oklahoma, said centerline being further described as follows:

COMMENCING at the Northeast Corner of said Section 13, a found PK Nail;
THENCE South 89°02'31" West along the North line of Section 13, a distance of 761.80 feet to the POINT OF BEGINNING;
THENCE departing said North line and along said centerline, South 00°39'07" West, a distance of 2656.75 feet to a point on the South line of said W/2 E/2 NE/4, and the POINT OF TERMINUS, from which the East Quarter Corner of Section 13, a found PK Nail, bears North 89°21'53" East, a distance of 838.59 feet.

The sidelines of said easement are shortened or lengthened to meet at angle points and to begin and terminate on boundary lines, said permanent easement containing 3.05 acres, more or less.

Bearings are based on UTM Zone 14 North, NAD-83. All distances are represented in grid values, measured in U.S. Survey feet, and are based on said Horizontal Datum.
