**GRANT OF EASEMENTS  
AND  
MEMORANDUM OF EASEMENT AGREEMENT**

This Grant of Easements and Memorandum of Easement Agreement (this "Memorandum") is dated as of October 2, 2019, by and between Walsh Family Farms, LLC, an Illinois limited liability company (collectively, and together with their successors and assigns hereunder, "Owner"), and EDF Renewables Development, Inc., a Delaware corporation ("Grantee"). Owner owns the real property described in Exhibit A, attached hereto and incorporated herein by this reference (the "Property").

1. Grant of Easement. For good and valuable consideration, the receipt of which is hereby acknowledged by Owner, Owner grants to Grantee, pursuant to the provisions of that certain Wind Energy Easement Agreement (the "Easement Agreement"), dated October 2, 2019 (the "Effective Date"), by and between Grantee and Owner, an easement (the "Easement") with the incidents and attributes described therein. The Easement is and shall be in, on, under, over and across the Property.

2. Purpose of Easement. The Easement is for wind energy purposes, including converting wind energy into electrical energy, collecting and transmitting electrical energy, and related activities (collectively, the "Grantee Activities"). The Grantee Activities include, without limitation: (a) determining the feasibility of wind energy conversion on the Property, including studies of wind speed, wind direction and other meteorological data, and extracting soil samples; (b) constructing, installing, using, replacing, relocating and removing from time to time, and maintaining and operating, wind turbines, underground and overhead electrical transmission and communications lines, electric transformers, energy storage facilities, telecommunications equipment, power generation facilities to be operated in conjunction with large wind turbine installations, roads and gates, meteorological towers and wind measurement equipment, control buildings, maintenance yards, and related facilities and equipment (collectively, the "Windpower Facilities") on the Property; and (c) undertaking any other activities, whether accomplished by Grantee or a third party authorized by Grantee,

that Grantee reasonably determines are necessary, useful or appropriate to accomplish any of the foregoing. Grantee shall have the exclusive right to convert all of the wind resources of the Property. The Windpower Facilities are expected to be operated in conjunction with Windpower Facilities installed on other nearby properties that are part of the same wind energy project (collectively, the "Project" or the "Wind Farm"). In the event that any laws, rules, regulations or ordinances of any governmental agency provide for setbacks or otherwise restrict the location of any Windpower Facilities to be installed on the Property or adjacent properties, Owner hereby waives such setbacks and shall execute any documents reasonably requested by Grantee to evidence Owner's waiver of such setbacks.

Owner grants to Grantee the right of ingress to and egress from the Windpower Facilities (whether located on the Property, on adjacent property, or elsewhere) over and across the Property by means of roads and lanes thereon if existing, or otherwise by such route or routes as Grantee may use from time to time (the "Access Easement"). The Access Easement includes the right to improve existing roads and lanes, runs with the Property, and inures to the benefit of and is binding upon Owner and Grantee and their respective transferees, successors and assigns, and all persons claiming under them. The Access Easement expires upon termination or expiration of the Easement Agreement.

7. No Interference. Owner's activities and any grant of rights Owner makes to any person or entity, whether located on the Property or elsewhere, shall not, currently or prospectively, interfere with: the development, construction, installation, maintenance or operation of the Windpower Facilities, whether located on the Property or elsewhere; access over the Property to such Windpower Facilities; any Grantee Activities; or the undertaking of any other activities permitted hereunder or under the Easement Agreement. Without limiting the generality of the foregoing, Owner shall not interfere with the wind speed or wind direction over the Property, whether by placing windmills or wind turbines, planting trees or constructing buildings or other structures, or by engaging in any other activity on the Property or elsewhere that might cause a decrease in the output or efficiency of the Windpower Facilities.

Property. An "Assignee" is any of the following: (i) any one or more parties involved in the development, financing or refinancing of any Windpower Facilities, including, without limitation, any lender to or investor in, or purchaser or Grantee of, the Windpower Facilities; (ii) any one or more parties involved in financing or refinancing the development of the Project or any Windpower Facilities, or any purchaser or owner of the Windpower Facilities; (iii) a corporation, partnership or limited liability company now existing or hereafter organized (including Grantee) in which Grantee or any of its owners, or any affiliate or partner of either, owns (directly or indirectly) a controlling interest at the time of assignment; (iv) a partnership now existing or hereafter organized, a general partner of which is such a corporation, partnership or limited liability company; or (v) a corporation, partnership, limited liability company, or other entity that acquires all or substantially all of Grantee's business, assets or capital stock, directly or indirectly, by purchase, merger, consolidation or other means.
